251. JEEPNEY MODERNIZATION PROGRAM - PHILIPPINES - FOR CONSIDERATION - Good Morning!

In separation there is folly; in unity there is grace of the higher principle in all universal thinking and action. – Uthrania Seila

We are in process of what we term as “**The Project**” which we feel will not only help the Philippines but also “**many other nations in such similar straits.**”

24-Oct-17 10:11:50 PM

Introduction

Good Evening. We are back, and gracious Beings please understand that our ways are not necessarily the ways each one of you are accustomed to. However, it is our pleasure to assist nations where assistance may be “**pronounced**” or “**required.**” In this portion our summation is “**pronounced**” and indeed has Jamie my co-worker once again brought to the forefront all that which needs perhaps another point of view.

Upon this day shall I open this portion with those of mine own comments.

Discard should it not be your kettle of food and we shall simply “**move on**” with other criteria.

In order to first establish a base or point of reference in looking at both sides of the coin please access these links in order to better familiarize yourselves, ye ones whom have not the knowledge nor information at your side in this moment.

<http://www.philstar.com/opinion/2017/10/22/1751151/modern-jeepney-greater-good-majority>

<https://www.youtube.com/watch?v=iJHG3BwbJL4>

This last video is the first invention which I would consider looking at because if there is one thing the Philippines is endowed with, it is water, and saline can be taken out of the water when necessary. Other countries have developed a saline counter-producer which simply removes the salt. It is called Desalination Plant.

<https://gineersnow.com/industries/automobile/filipino-inventor-develops-fuel-efficient-anti-pollution-device>

This invention would be my second choice entirely due to the fact that the interest so quickly developed with this power-up fuel combustion was that “fuel” would “**not be replaced**” with “water.”

Though this looks rather antiquated, it could possibly be streamlined. I am wondering further if the Euro-4 is not being built in Europe to prop up the European Union and their dogmatic alliance with the monetary banking system.

No individual member state of the European Union is individually representative of the European Union. **For the European Union represents and promotes disunity. The European Union stands alone and gathers the monies of those under its claws and locks them in a crucible.**

The European Union feeds like a leach from those within it’s tentacles. The European Union, as one understands, is just another tool of the Capitalist Hegemonic system of corporate power over the industries and banking monopoly suffocating each **NATION**. Putting the Philippines in such dire straits economically is unwise. If the industry cannot handle Filipino inventions then I believe that Asea, perhaps Japan should be first given **the prototype** to work on along with Filipino inventors and allow them or someone else within the **Asean Central Nation** to strategically build and supply the Philippines with such automation and in return the builders may also benefit from the prototype and assistance of the Filipino inventors. The reason I chose Japan is due to the fact that they for some time now use cloth on vehicle seats rather than the leather skin from animals. Now, when one does not break **Universal Principle** one finds that industry has a way of bringing the so-called wise to their knees whilst the presumably poor nations are brought up to a tall standing point in the hierarchy.

In conclusion, we would strongly suggest that farming out labour from the Philippines should stay well within the **Philippine borders**. And in short fashion we shall explain why and speak of the new industry in a short note to follow.

Let us now speak of loans:

Loans only serve to initiate more debt upon the peoples and the nation no matter which form it takes. That is not wise and rather facilitates a quick way to guarantee a monetary takeover of the nation, of any nation.

Some believe exported technology is for free to less advantaged nations. Exported technology is never for free, and if it were, **then why the loans and the extra rates and the need for government subsidy?**

While there are bright and brilliant minds in the Philippines, I see no necessity for bringing in prototypes which bring great monetary expenses to both, the peoples, as well as the government.

This will serve to prop up the financial institution of the European Union and rake the costs from the peoples of the Philippines, themselves. You must understand that no-one is expendable and yet the health concerns of the peoples are at an all time high with underfunded and antiquated hospitals, and staff training, to a point, so this must become a priority but not at the expense of driving a nation bankrupt. **Does this sound reasonable?**

And yet, some Filipino Doctors I would rather trust than any of those found in the west. Most assuredly! Others not.

No matter what form they take in coinage, please remember all finances are monetary and wherever you have government dealing in monetary finances, you have loans, and with those loans the government becomes overcome with debt and that debt will then incur further debt and the government will then panic and raise taxes which the people will need to eventually pay out of their meagre income and government security and paychecks for those who write on paper

and whenever and wherever you have incurring debt translating into many tax-based accounts you have a government breaking the very tenant of Universal Principle whereas that Principle is then transmuted into "Law" penned by the hand of man and when you have an enforced "law" such as "usury" you are on the way as a nation to not only bankruptcy, but a crime-based monetary foundation of which no nation may survive.

So as you strive in eliminating one crime-base, in loans you are actually promoting and upholding an even greater crime-base for it is leached with saboteurs of the nation's and peoples' pocketbooks. Do you agree with this? Is this not indeed so? That is why what looks good on the outside can possibly bring about a major downfall of the Philippines.

The Philippines is NOT, in fact, a small nation; but a great and large nation with a base of one Main Island plus seven-thousand five-hundred other little Islands of which all must be considered.

Should for example Japan wish some of the Islands then that can prove a viable part of the trade-deal so to speak, **but not trade in fact as in barter, no, not at all.** This is but an example.

We believe one must not wait until an agreement is coined in stone but rather to present all of the facts and initiations to the table **before the ink has dried.**

https://en.wikipedia.org/wiki/Daniel_Dingel

Take for example the write-up on **Wikipedia, because I smell a “rat.”** When the oil and gas industry is put, shall we say, at a disadvantage to put it mildly, coins and collateral tend to flow indecently behind the scenes. Do you not agree?

Since when does a working or even non-proven prototype not been disappeared by its adversaries, especially in these type of people-friendly inventions?

What in earlier years had been taken from the peoples and which at the same time would have **eliminated pollution** has also been taken **from future governments**, from the nation and nations themselves, for this could well have gone far.

Fiscal encumbrances indeed have well been put on the nation **when this prototype was made to disappear. For goodness sake!** All prototypes are not memorised, they are written down along with pictorial images and film. **Is this not so?**

It is wondered, therefore, who exactly scurried away with the prototypes and whom indeed received the biggest payout putting millions of lives hanging in the balance, lives which could have been extended should they have had such an invention at their disposal and the engineering ranks and automotive industry could have going world-wide in bringing the Philippines and their counterparts out of desperation. Instead, the monetary brilliance of the pocketbook of others hurt the peoples, hurt the future government, hurt a potential and promising new industry and hurt the NATION.

Is it possible that not one nation abound could have benefitted from such Talent and Logic of dynamics?

What benefits the peoples more than that which has been stolen from underneath their very noses putting them in further debt and denying them their very health? Now all motorcycles have been ordered fitted with mufflers, and other provisions can they not be made in consistency with the effect of reducing pollution through the further use of cosmetics such as anti-pollution devices as provided in the links above? But only UNTIL the vehicles are converted into water for fuel. Think how much will be saved in both currency and the health of the NATION.

The dividends are much greater when they are the People.

You used to have some extremely wise and ingenious ideas.

If this makes no sense, President Duterte without the “Sir,” **then shred it.**

252. “In the dead of night, Chinese activists stopped the truck.” Thank You Holy Ones!

Wisdom over brawn is a lasting legacy. Wisdom mixed with courage goes even further.

Courage relies on inner strength but inner strength comes merely from an understanding transmuted into a knowing that what you are to yourself so should you be to others in initiating the positive and rationalising not upon the opposite level of consciousness. Ye ones have done well.

Know that not only dogs are best friends of the man, the woman and the child but ALL SENTIENT BEINGS of the most positive nature are the same with NO EXCEPTION.

Dogs ONLY being considered as Man’s best friend is not only a misconception but an INACCURATE PERCEPTION.

Now we shall show the other side of the world - and these beautiful sentient Beings NEED NO LESS THAN THAT WHICH IS PRONOUNCED UPON THE DOGS OF CHINA!

They are the pigs, the chickens, the cattle and the fish!

Remember many are eating in the west BEST FRIENDS OF THOSE IN ASEA!

– Uthrania Seila

WHAT CODY SAW WILL CHANGE THE LIFE OF EVERY HOLY UNIVERSAL BEING! Yes, ye Ones, to the positive. (smiles)

From SOI

The footage is chilling. Hundreds of dogs – terrified, sick and starving – crammed into small wire crates with no room to move. These dogs survived. But just barely. The whimpers and cries are agonising. To help these dogs now, go to http://bit.ly/emergency_rescue_china

The dogs were on their way to slaughter. But then something extraordinary happened. **In the dead of night, Chinese activists stopped the truck. They seized all 600+ dogs. Like you, these animal lovers couldn't bear the thought of innocent, feeling dogs being tortured to death for their meat.**

The 600+ dogs have been spared a cruel death. Now they need you. Yes, you.

Rescuers on the ground are scrambling 'round the clock to make sure the dogs get urgent medical care, food, water, and shelter. Soi Dog Foundation is providing major financial assistance to ensure these dogs are safe at their emergency makeshift shelter.

You have the opportunity to be part of this incredible rescue effort. And you are needed.

Please donate whatever you can now at http://bit.ly/emergency_rescue_china. This is an enormous challenge but we know that as an animal lover, you will do whatever you can to save these innocent victims.

On behalf of the dogs whose lives you are saving, we humbly **thank you. (end quote)**
It is wisdom to network with those who have a means of contributing with their own good-will. Monetary expenses, dear Ones, are the greatest barrier to getting any job done in a major way. - Uthrania Seila

Dear Ones of SOI, what a wonderful idea for an Island also in Thailand!

<https://www.youtube.com/watch?v=xnBpp8p8Kos>

The Philippines has freed sad and lonely chimpanzee from People's Park in Valenzuela City with more to go. Free vaccinations and some spaying and neutering, and such a wonder with the Peoples in certain places looking after their dogs and cats and roosters. Such ones are the conscience of the NATION. We thank you One and All for your genuine consideration, for only the wise, the temperate coupled with the understanding of the depth of suffering of both HUMans as well as all non-human sentient Beings is the catalyst which brings about change - a change which changes NOT the culture enacted of a positive nature but a change of negativism within any culture in reverting ahead to the original culture within each soul existing within each global community. That culture is compassion, mercy and action and therein is the light = enlightened understanding that Creation is ONE within the soul of each and every NATION as such extended to each and every sentient Being no matter the format which is his or her own.

253. Where Mercy Extends The Islands Are

Ready

When the envelope of life meets you in the face of all seeming controversy that indeed is the hour in which an extension of the power of peace sees to firmly reign in the land.

However, when distinction showers its face upon the collaboration with others who seemingly wish to participate for their own purpose in another's land then the question must be asked: whose reign and whose horse are you stepping on?

For botany grows its elusive leaves upon the moisture of the land and whereas the grass will not grow so unto the forested regions shall the dry land and the moisture heat up or facilitate the little known poison out of the land.

So Peace will grow and the land will stay and the People shall Prosper in a comely way where the oil runs dry for the wise arise and that which is the NATION with all eyes become dry!

254. Industry In The New Way Becomes War As A Thing Of The Past - NATION

Good Morning. How fares the fine weather in Japan?

Whereas Japan will play a significant part so is it known a new industry will resurface and of this industry shall the nations with their hand out to the Philippines be shown of their true intent.

Be careful then that a single unmolded yellow star is not misinterpreted by land, by sea, nor afar.

Upon your visit then to Japan so shall the liquidation of all that is so far to be shown in a light which may serve the highest and the best for the NATION entwined with NATIONS for the way will be given to provide secure investment upon your discussion with the Respected and Gallant Emperor and his most delightful wife,

for the presentation must always coordinate with the strong side also of the lamp.

Of this not one nation need be left out.

We will forfeiture the war yet give nothing away for the NATION is a giant in stature and reliability and of this what Mr. President Duterte without the “Sir”

do you say?

Do not follow the industrialists. Follow the wisdom. The future becomes more modern than you think.

Have of yourself and selves a very good day.

- Uthrania Seila

255. We Will Not Be Pressured Into War

Start Plan will be at the hour of our own choosing for though the hour is near we consider it “wise” to hear the offered staples of the United States of America “before” we present our Start Plan to those with cool head and fire only within their souls and not wished within their guns.

Every architect has a plan and this plan provides the ingenious of the world with one more opportunity through which a living can be made in many facets by many hands in many calibers or calibres whether rich or poor and without suffering those all around you.

This is our new beginning and it is enough.

No. You have not heard it before.

President Duterte, please stand-by.

256. Philippines – THE PRISON SYSTEM – People of the NATION

Philippines – THE PRISON SYSTEM – People of the NATION

Upon the Topic of Amnesty and the one hundred and eighteen prisoners

<http://www.philstar.com/headlines/2017/11/05/1755999/palace-agrees-building-mega-rehab-center-miscalculation>

<http://www.philstar.com:8080/headlines/2016/11/30/1648914/rody-allot-more-funds-drug-treatment-facilities>

Good Morning President Duterte, Honorable Members of the Supreme Court of the Philippines and Peoples of the NATION:

We are with you this day. And speaking definitively of the great land of the Philippines. Across the board sweep of granting exclusive pardons was not done and many of you are now wondering why since we bespoke of ourselves the distinct point that prisons are an institution which I, for one, deplore. Let us make that point perfectly clear.

Now without going into a long and laboured speech we shall come right to the point. There is a drug cleanup Island and Islands wide. You all know that. Those whom have become arrested must now be kept safe. This includes young unfortunates who are grabbed by their shirt collars and for lack of work or trade are captured, yes, captured by drug lords and put into the drug trade.

Among them are others whom have not invested their time or hours in the drug trade whether willingly or not.

Should a sweeping amnesty be granted to these people what do you think would happen?

What would happen is this:

They would not be given freedom but a death sentence by the hand and pen of the court or palace or President.

They would be freed to do what?

Go back out in the streets to once again fend for a living which at this point in their existence does not even exist save that of the drug trade or some other formidable lifestyle?

Freed to be murdered by those who wonder if they talked?

Freed to be snatched into the coy and cruel syndicates who would ensure they not talk by getting them well into more deadly mischief?

Freed to be shot or re-imprisoned by the military or government forces?

However one may argue by saying that government prisons are overcrowded. And they would be correct. Another may argue that some prisons are stench, filth, and inmates are getting trampled.

This happens in many poor countries.

Now, we all know that this transpires in the Philippines and when people suffer such horrors we of good conscience are not going to put a good face on it.

There are other prisons which conduct themselves in more humane effort with clean bed sheets and nice blankets and painted walls with clean floors and singing in which to uplift the morale of the inmates.

Other prisons have we viewed over the television and in pictorial format in the Philstar.com which we also understand a little mocking from both the prisoners as well as the guards of which position we do certainly not appreciate. Let us be quite clear upon that feature.

The Islands are where this formidable practice of housing so many whom either do not deserve it or of housing so many who do deserve it, to put it mildly, from unspeakable or “unpleasant places” will serve to become one of the best solutions one could possibly attain to and construction would belong to the inmates.

There would be divided the hard core inmates from the unfortunates. Each of these inmates would be responsible for assisting in building their facility with the assistance of architects whom will outlay their blueprints.

Those who are artistic shall paint and beautify their rooms and the outside of the building. Others may plant flowers and foliage beautifying the grounds.

Others will be responsible in attending to the gardens growing food for their sector.

The inmates will counsel each other in groups analyzing mistakes and receiving counsel from other inmates of their own folly and the circumstances in the country.

There will be among them those who volunteer their hours in assisting these inmates toward reintegration forward (not backward or back) into society.

There will be music for the repair of the soul.

There will be workshops for those who need to learn a trade of their own interest in order to contribute their new talents forward when reintegrated into society.

There will be wise men and for women inmates the program shall be the same accompanied with wise women as well for their ear and counsel.

And finally there will be study halls for those whose schooling had been cut short or abbreviated. And the inmates shall build it all.

Now there are two kinds of prisoners languishing in jails or under house arrest.

The first are those who really have no case against them or a case falsified whereby one did pin the blame upon another and a payoff occurred within the judicial system. And this is precisely why I, for one, do not trust the judicial system too far. Such innocents have no fear of a pardon for their lives are not at risk out upon the streets.

The second class of these type of prisoners are as follows:

For those who are political prisoners it is mine own suggestion that holding such is one of the worst malpractices in the books.

Why is this?

Simply because it is not only an infringement of free speech but brings with it a lack of confidence in one's own leadership;

And fragmenting the population even further.

For where leadership stagnates in one area or another so does it only show that the peoples are not one-hundred percent behind the leadership or government or crown.

The Power of the People or People Power are the most reliable definitive resource a government can possibly call upon and they make the very best soldiers of them all for **LOVE OF THEIR LEADERS AND LEADERSHIP** cannot be broken when souls are not culled and broken beyond repair.

They will always give life to the government, to the leader, to the leadership, to the President, or to the crown.

They will follow the one who takes care of them

To the grave.

In retrospect, we face a new situation. This situation we must ensure fairness, safety and wisdom be our be not only our guide but our main concern.

In the issue or example of the Korean man who was said to have killed his wife, there are two possible outcomes.

One is that the family of the spouse, the wife, would demand blood money or the Korean man's own life in retribution.

That outcome would be most likely.

In the case of pardon or amnesty the position we feel must be taken that the man either be released to Korea to be dealt with there on their own terms;

Or

Be forwarded to an Island. It is to be noted, however, that the position of the court of the land would definitely be one where the entire text of the matter be brought to light once again as the text seems to have disappeared from the face of our presence. Thank you.

What would his release mean?

Most likely a death sentence should blood money not be met not accepted should he be given a pardon and released to Korea.

In the matter of all police officers and their pardon, we or I would suggest that in order to give the whip and the gun of the matter to those who have no limit on their holsters this matter would become the imitation of a wild-west scene in the movies where gunslingers do not look to see who is there at the back of their bullet.

On the other hand, let it also be known that the drug trade has become a severe trade for the lives of both innocents and those of such high regard for the dollar, the peso, the yen, and any other currency, so that lives of millions have been culled also by the hand and rake of the unconscionable of the society.

Therein, have we written: **Where Mercy Extends The Islands Are Ready.**

We need boats, coast guards, the navy, to protect and defend and guard such acquisition toward the good and the productivity of all citizens and all life known to the Great and Large Land of these Philippines.

We thank you, each one for your patience and your good will and let our design each and every one of us be filled with mercy, with compassion, with stalwartness and by design of our intricate and forthcoming wisdom.

We trust we have been of good service.

Good Day.

- Uthrania Seila

257. APEC SUMMIT 2017 - Start Plan

APEC SUMMIT 2017

Start Plan

When one hand strikes another there can be no solution but when the solution keeps the striking hand down so will the froth at the mouth cease its rabbinic control and no one shall be left out.

Understand that one position does not need negate the other and of this shall we explain why.

Good Morning to one and to all!

Mr. President, Visiting Dignitaries, Leaders of State and NATION and NATIONS of PEOPLE!

Mr. President, Salaam alaikum, and Greetings of all nature throughout the world!

We gather here today to take the intricate of all studies and formulate the correct solution, for the proximity of the war is not one of congeniality and therefore not one which we as a society of gracious HUman beings want nor adhere to.

Do not make it necessary. Do not make it so.

The solid base shall be formulated from the Philippines, for the least likely in the minds and souls of others shall verily prove their significance in the overall outcome of that which many of you consider the impossible.

Let us begin.

Strategic recovery has always been a main principle and at the forefront of all military action, but now we go a step or two further and we begin with the understanding that all **ARE INDEED ONE.**

Once you have reached this understanding that which is to follow cannot be undone save that by Majestic hands of the corporate powers, the banking scams and all which is surely to follow.

But the day must be past. **And you must make it so.**

Where coinage and bills and stock markets are replenitive so are not the lives and skins of the peoples nor animals, fowls, sealife and all crawling, growing and flying things.

The New Industry is not a corporate power but the New Industry shall bring about a major shift in today's market where both the rich of soul and the poor of soul may indulge themselves within for the profit of this New Industry is one which will guarantee no losers and shall take down the prisons in all spheres of slavery to the banking and corporate powers which have for so long ruled the day to the despair and tragedy of the entire world population.

Whereas so many are seated at a disadvantage in their economic status by economic tyranny so do the very ones seated at the top of something need also to reconsider their bankrolls and hygiene and where the New Industry will take them.

When the rule of law, so to speak, becomes the Universal Principle, so then shall the light of congeniality reign both high and low.

When you take two opposing forces and those two opposing forces continually strike out at each other one must know at that hour what lies between those two opposing forces.

And remove the reason those two opposing forces continue in striking out at each other.

In this case it is money. It is the dollar, the yen, the peso, the rubel, the rupee and many other currencies who all vie for the lead position.

Many of these who vie do so just to survive.

One of the greatest manufacturing feats are the food, fur, and leather industries brought about **by those who would sell the coat off their own mother's backs during the coldest of years.**

Here is the where the New Industry comes in. And here is where the two opposing forces no matter who they are will calculate their dollars and cents, rubels and yen, dinar and riyal, and all other known and unknown currencies yet to hit the market through their usual hand-grabbing edict.

For those **NATIONS under horrendous sanctions the world population will gather at their side and repulse those who demand they eat the meat or wear the fur of animals because under sanctions that is all that is left.**

When more effort is given to the manufacturing of the New Industry, rubels and diamonds, opals and oil will become engaged with green energy and the old **will fall** in place of that which had been the original standard of the HUmanity among all other Sentient Beings.

And the more hand-grabbing toward the New Industry the more power is given toward the animal, the fowl, the flock, and all other sentient Beings whom for so long have had no voice.

This New Industry will create more jobs than governments and peoples will know what to do with and Japan coupled with the Philippines already have begun along that path to societal recovery of industry, animal rights, and now the sea life must take full priority for a genuine turn-around of all good conscience.

Animal and other inhumane leather manufacturing will be a thing of the past and with the New Industry in it is gaining control of all good hygenics and common sense and courtesy among all living things, without targeting any variation of sentient Beings.

Japan is reigning high in the industry of using cloth instead of animal or people skins. Horrified? Which of you can tell the difference?

The many nations, not Japan, tan the hides and backs of living human Beings put out to slaughter. Peoples missing in your jails? Do not be so surprised. Just look at the price tag. **Which of you** are not too modest to display upon your shoulders bags of cryptic skin which you only and honestly presumed belonged to those not of your own race or ilk and you only presumed belonged to others whom you really did not care about; the animals, the feathered and flocked ones, the amphibious, the sharks, their fins, the soup, the entire horror of life as a different sentient Being of which and do remember, each one of ye are a viable part of.

The New Industry calibrates itself into a one-hundred percent success rate for all world economy, **for when Universal Principle is adhered to the satisfaction rate for the world population cannot and does not fail.**

It is called the Universal Industry of New Leather. It is Vegan and it is made from mushrooms of diverse species.

And it belongs to all!

Here is a short video of how to turn one industry into an industry which goes beyond ones imagination with statistics:

Competing with mass market on a scale of 100% success rate. “The market is huge!”

AND IT IS OPEN!

<https://www.youtube.com/watch?v=gZQGeQp4v-4>

The fur bearing animals, the flock, the geese, all are in the makeup and oneness of the One Creation.

And you, ye ones, are too.

When we first learned of Vegan Leather there were only a few such as made in India, a poor country but can no longer be found on the net.

Prices will generate a snowball effect for prominence and that is where the smaller businesses, the micro business comes into play, for the Peoples themselves will be able to grow and cultivate, tan and produce a quality product with which to serve the society around themselves at a lower non-taxable affordable base undercutting the giant corporations and making it feasible for the rapid growth of micro-industries which also can avail of themselves the vegan leather from micro-businesses and Japan and the Philippines will work together in producing this new Vegan leather for automobile seats, side doors enhancing the comfort and looks of vehicles of many varieties and models.

This, coupled along with Vegan foods will serve to generate new micro-businesses NATION - WIDE AND GLOBALLY!

Where North Korea will become unsanctioned; where Russia will follow, where all sanctions in North America upon South America and all other unfortunate NATIONS will drop to the ground so shall then it be the fortunate circumstance and policy that all NATIONS who adhere to Universal Principle shall be ONE in laying the groundwork for the New Leather Industry by treating their fellow and sentient Beings who differ in their looks and Beingness of survival instincts, with more than the greatest respect and honour ever placed upon man, woman, or sentient Being of a different look and variety than that of themselves.

China in this respect is bringing about along with other Asean NATIONS more of a fruitful response in both the food industry in the freeing of the unfortunates as they are taken to market. And of this we thank such Holy Ones.

India in this respect has understood the potential of the New Industry of leather in order that the unwanton sacrifice of other sentient Beings no longer remain an excruciating practice against all Universally understood humane actions and were one of the first to begin this process.

The New Industry has not yet been broken into in a large way and no matter the number of NATIONS who calibrate among themselves in bringing this manufacturing practice into total Beingness there can never be too much industrial leather on the market for much will be needed to replace all the animal, snake, people and reptilian skins among other horrors in the land.

Sanctions upon any nation such as North Korea, for example, you must understand, serve only to ensure the peoples continuation in eating meat and wearing clothes of leather and brine.

Where one hand discusses the fate of the other so shall then the entire body go down, however, when one hand discloses the Universal Intent toward the healing of the entire and gracious stature of both HUMANITY and Sentient Being of all variations that is the hour in which disclosure becomes a most analytical circumstance to the graciousness of all.

There is a kind face in the center of it all so **“Thank You” President Xi Jinping** for standing so tall with us all.

Jamie SR Cortez Reni Sentana-Ries

Notation: President Duterte, certain portions have been highlighted for emphasis. We trust this shall assist the Philippines in such a way as to bring the Peoples, the NATION, and indeed the entire Central Asean Nations to their feet with a new and more applicable stance. The greeting given is the same respect as you gave in your speech in Japan. I am sorry. I thought that you were planning to engage talks on the summit 7 with China. I believe that in ‘good faith’ and after this document is read there shall be a different and greater understanding among the Foreign Ministers of the ASEAN Central Nation. Should you however, wish for me to rewrite that disappeared portion which I wrote as of the earlier hour then indeed must I do so. We believe much correspondence has been waylaid not reaching its destination. Please advise.

The age old problem which need not develop into a statutory crisis was just what I had written of the earlier hour when upon posting to our front page it disappeared and now I understand why. It is not President Xi Jinping you need worry about concerning his word for you already know his word is his honour. It is the play of those who wish to tear and destroy this summit with falsifications in not giving the Asean Central NATION a hairs width of a chance to be heard. This is not a matter of a UN policy gate nor a matter of disgruntled Asean ‘States’ (you read my meaning here loud and clear) but rather this is an old and outmodded definition toward (how may one keep the U.S. dollar and coinage afloat?) In addition, there are those who wish you to fail and I for one and Jamie (English variation of Jaime) and Reni do not wish it to be so.

‘Good faith’ therefore, would be verily misplaced should the carpet be stricken from outside the door of the house where no stranger lives. I see by the CSIS label on the front of the image just where the likelihood of where this comes from. I mind not writing one whit the disappeared address to the ‘concerned’ over this policy which I did this day.

Keep therefore the 'Good faith' with those you know and remove not dogma from the closet where it belongs for all transparency is what I spoke about and China and the Philippines but Vietnam's part I did not go into at that hour not so long ago for that was not the prominent criteria which was being adhered to. The closet door was opened and this new administration has always been transparent and someone does not wish for that information to become publicly known. We know the United States is sitting on Vietnam but we must not allow even that to overturn this most important Summit. President Duterte, I shall do my best!

258. President Xi Jinping - The Writ Is Now

Ready

President Xi Jinping, your Excellency, we shall speak as openly and maintaining the clearest facts and coherent adjectives, nouns, pronouns, and a stable of verbs as is our usual practice. Thank you for inviting us to the chair. We shall coordinate this short talk in with the request of President Duterte and the administration and that of yourself, Your Excellency.

In regard to China, the Philippines, Vietnam and any other prior engagement of treatist there maintains a period of examination. As with any new vocation or memorandum of understanding a trial period usually takes place.

During this trial period awaits an injunction from the suspecting eyes around such innovation. Whether it proves fruitful or not is just another matter and not to be calculated as something hijacked or detrimental to the other concerned parties of the CENTRAL ASEAN NATION.

We work in one accord no matter whose face is on the bill. It appears now that in all transparency the one voice seems to come from the United States and its congruous sponsors in the house of Lords, Congress and perhaps even the Senate.

We do not blame the American President Donald Trump for his shortcomings and neither and out of courtesy and respect should he do likewise.

This is our house and he is but our guest.

Taking into consideration the American, the U.S. President is our house guest, rather, we shall remain most courteous and diplomatic for our intentions are no less than honourable and we must insist that in divulging our wisest intent to the American President, our

house guest and diplomat that he properly and respectfully refrain from such finger pointing for our fingers in dealing with the American Congress, Senate, and buoyancy of a multiple presidents have been many, some courteous and those of others we could say without banding about words, less courteous to us all such as the time a plane was ordered for President Jiang and it came unleashed with culprit spy gear.

End

President Trump's Administrative Advisors Concerns, President Xi Jinping are as follows:

“(President Trump’s) His government has raised import duties on Chinese aluminum foil, stainless steel and plywood, and is investigating whether Beijing improperly pressures foreign companies to hand over technology.

If they discuss trade during the two-day visit, Chinese President Xi Jinping's government is unlikely to offer enough "to appease US negotiators," said John Davies of BMI Research.”

It would seem that Washington's concerns are invalid due to the most coherent and evasive fact that it is Washington's tribal areas around the White House whom of themselves coined the 'adjective' 'give just enough to appease the world's tribal brown areas and then break all treatist with them.'

It is doubtful and sad that President Donald Trump does not seem privy or to know about the Kol Nidre accord which occurs around the world by the American Administration and their Handlers, the Hidden Government, and the Lobbyists of a foreign nation.

Our suggestion, Your Excellency, President Xi Jinping would be as follows:

President Trump in himself is a nice man, however, he lacks the coherence of administration and therefore is no less a puppet of the State as were many other presidents. We have nothing against him, as a man with a soul save that of the extenuating facts that the cruel ones within his own administration are playing him for a fool in not allowing his administrative powers to have during the first month, yea, month and a half to bring his troops home. Now that he is out of the country, his administration is playing havoc in order to unseat him as the culprit CIA so often does to world leaders including President Duterte.

But that is the CIA and that has always been their forte, as you so well know.

President Trump has not been able to clean his swamp of the pyranha, he hired them instead at their own insistence that his life and the lives of his immediate family be spared. They hold the threat of the lives of his less immediate family on the stone wall of purgatory.

Therefore, we would advise, Your Excellency to not concern yourself with appeasing the Americans with any joint proclamation at this hour until you have thoroughly examined the Start Plan which is now held by President Duterte. In relation to the U.S. proclamation upon raising ‘tariffs’ on Chinese exports into America we would suggest also, Your Excellency, that you review your market and do the proper adjustments.

In appeasing Your Excellency for all you have suffered at the hands of American Administrations we would also suggest with your further permission that you withdraw all joint contracts on the basis of Kol Nidre which is the signing and the breaking of a contract drawn up supposedly by each hand in a voice of ‘Good Faith.’

We trust we have been of further service, Your Excellency, President Xi Jinping, and as always it has been our pleasure to further the cause of peace in the CENTRAL ASEAN NATION and among all NATIONS Globally.

With our deep respect and fondness

we remain,

Uthrania Seila

259. Whose Mind Divides a Nation is the Same Mind who Divides a Peoples!

Whose mind divides a nation is the same mind who divides a Peoples.

Good Morning! President Duterte and Good Morning! Your Excellency President Xi Jinping. We cordially wish you both a Good Day and wise decisions at all hours.

It is 'wisdom' in not neglecting the tendencies of the 'Star Plan' for the 'Start Plan' shall avail more than the eye has seen and further than the tongue has spoken.

It is also prudent to recall and 'remember' the days of the past administrations of the United States, for upon all good conduct within the **CENTRAL ASEAN NATION as a whole, as being in one good conscience**, the words of the Americans themselves may well tell a different story and one to be reminded at this hour as the old forgotten issue comes up and bears to the forefront.

Let us listen and thoughtfully **consider the words** of the interviewer, Amy Goodman, and that of the gentleman interviewed, a Mr. David Talbot. In the first portion **it is the picture which counts of the past president of the United States of America.**

However, in overall context, **it is the second interview which is the most important.** Just over one half hour in length.

<https://www.youtube.com/watch?v=anYqrPRvhgo>

<http://stateofthenation2012.com/?p=88395>

Should this further discussion on whether a buildup or not by Chinese forces preclude all which is naturally coherent toward the safety and prosperity of the entire CENTRAL ASEAN NATION become a liability toward and among all surrounding NATIONS present, now continue to exist in the minds and souls of the Peoples?

By definition alone should this indeed remain a worry?

His Excellency, President Xi Jinping has given his word as a man and has retained his honour in all instances, therein we feel the litigations against his person is and always has been - unfounded and an insult.

With our respect intact

we remain,

260. PRESIDENT R DUTERTE, THE HOLOCAUST AND THE HUMAN RIGHTS SUMMIT

PRESIDENT R DUTERTE, THE HOLOCAUST AND THE HUMAN RIGHTS SUMMIT

Good Morning, Good Evening, and Good Afternoon! The tenure of this message might well surprise you, each and every one, for it concerns the one topic 'seemingly forbidden' under the Duterte Administration and that is the topic or issue of Human Rights and of the President wishing 'wisely' in holding such a collaborated meeting among all nations.

However, there seems to be much opposition and of that do we fail to understand just why that is.

Is it not the usual practice among nations of the global community to want leaders and heads of state to allow them into the nation to address the **human rights issue there?**

And here is now a President who ‘invites’ a Human Rights Meeting to be held in the Great and Large NATION of the PHILIPPINES and his hand is struck down.

And we would like to know why that is, exactly?

We are waiting and our ears are open. Please proceed in explaining yourselves.

Alright, then let us proceed.

Allow us to first define the words **HUman and Rights under the Universal Principle. The word HUman means Holy Universal Man and Woman.**

Holy Universal consists of Morals and Ethics. Therein Holy Man and Woman not forgetting the child and children **ARE** morally and ethically responsible for **CARETAKING** and **UPLIFTING ALL OTHER SENTIENT BEINGS.**

We place in **capitals** and **bold**, the words for you who are blind of mind and deaf of ear to both see and have them spoken aloud to you **with emphasis.** Thank you.

Now we hear by voice of mouth from one or two or more that the Philippines should not hold elections on such wasteful dialogue because the house needs cleaning first. Elections in this sense meaning consent.

We ask you, therefore, which house of your individual homes or hovels which you may live in is clean?

If a **NATION** wishes to rebuild itself into a **PARADISAICAL HOME** for its **PEOPLES** and Government then every house must be clean, does it not?

Let us look at the German holocaust which is still raging on since before WWI, shall we? It is the same holocaust which has been raging in every other nation of the world and one in which the sacrificial tendencies of the human creature - for we can hardly call such ones Holy Universal man or woman - never seems to cease.

In one year in Germany alone 58,730,000 pigs are being slaughtered. 1/3 ends up in the garbage. 19,577,000 pigs are being slaughtered and wasted into the garbage bins.

500,000 pigs annually bleed during slaughter procedures and without being stunned, they are then plummeted head first in full consciousness into boiling vats of water! (*Notation: Correction in the number of pigs annually been slaughtered in such format*)

In Germany the holocaust continues and WITHOUT Benediction, prayers nor even good will toward the tender souls of the 200,000 cattle additional who with their throats slit are being slaughtered as they CONSCIOUSLY bleed into PHYSICAL DEATH.

These Sentient Beings have done nothing at all to upset the balance of the society they reside within.

They do not get themselves drunk nor use drugs nor take guns and shoot one another nor those of any humans, nor do they drop bombs upon NATIONS spraying white phosphorous and many other unthinkable acts against the HUMAN Rights of All Sentient Beings.

They do not cut limbs off one another as the shark fin industry does; nor do they carve out meats from the sides and bones of fish for fillet soup or other dishes on the menu.

Within all Europe combined in their non-abolition of all sentient non-human Beings being murdered annually are these figures:

Europe's slaughter efforts recently: Cattle – 25,267,000; Pigs – 248,648,000; Sheep – 43,800,000; Goats 4,803,000; Chickens, Ducks, Geese and Turkeys combined – 7,200,000,000.

Sometimes the level of HYPOCRISY is JUST INCREDIBLE!

Shall we proceed to all the other nations upon the face of this globe?!

And of course this does not even cover the monstrous level of sea-creature murder, torture and hieroglyphics placed upon them on in the wise of sales, goods and services price tags!

Let us tell you this in all good conscience: *Where you harm the least, the smallest, the most minute of all sentient beings; the grasshoppers, the frog, the minnows, the baby sharks, the walruses, the porpoises, the dolphin, the monkeys, the apes, the cockroaches, the spiders unpoisoned, the rabbit, the hare, the goose, the oyster and the clams, you take the greatest chance with your own lives for what you destroy with vim and vigor so do you also destroy yourselves, for the day and hour and season will come where each one of you shall taste the vat, the water of boiling incensed others whose caretakers just want the experience they have had to be yours for the test.*

Why are non-ASEAN representatives at the ASEAN SUMMIT as held today also in the PHILIPPINES?

They are allowed to speak their own mind whilst standing at the podium.

How then could any one of them condemn the National House Philippines, the Peoples, OR President Duterte and the Administration when their own houses are not clean?

The answer: Many will not. And why not?

How many NATO, UN, and Western NATIONS ARE SLAUGHTERING PEOPLES NOT ONLY IN OTHER NATIONS BUT IN THEIR OWN NATIONS?
Well let us tell you all something. President Duterte **DOES NOT GO OUTSIDE OF THE BORDERS OF THE PHILIPPINE HOUSE TO STOP DRUGS BROUGHT IN BY INTELLIGENCE OF OTHER NATIONS TO DESTROY THE PEOPLES AND THE NATIONAL HOME OF THE PHILIPPINE PEOPLES!**

For as long as anyone inside the House of the Philippines, or anywhere else in the world eats meat, consumes dairy and eggs:

Then do not tell us that the house of the PHILIPPINES is dirty and your house, individual or consecutive or national is CLEAN!

Therein, the meeting will be held IN THE PHILIPPINES just as soon as President Duterte, Vice President Leni Roberdo, whom I also have much admiration and respect for, the past President Noy Noy Acquino, and the present and past Administrations working together in this same ONENESS OF PURPOSE along with each and every one within the GREAT AND LARGE PHILIPPINE HOUSE for when you think we speak only of the viability that HUMAN BEINGS are the only Sentient Beings with rights and liberties, then you had best ALL THINK THINGS THROUGH AGAIN!

Show us one door which is clean and you may come directly and speak at this new Summit of HUMAN RIGHTS, MORAL AND ETHICAL SANCTITY!

We thank you each and every one here today and welcome you all most graciously to the Great and Large House of these PHILIPPINES.

261. The PAMPHLET - Poor Working For Each Other!

In compassion is the stirring of the heart into solidarity, and there is a spark inside humans to share with one another, which is the composite of humanness. Sharing can start with things no matter how small. It is the thought that counts...

Colours on the flag in words only serve to signify that no one person is unable to assist another in the art of thanksgiving and goodness without making it into the art of charity removing all dignity from the land.

VEGAN MEALS FOR THE UNDERNOURISHED WITH BOOKS FOR THE INTELLECT

People helping people

NO PESOS REQUIRED

The beauty of it is anyone may contribute!

To the human family!

Hello, my brothers and sisters! I am handing this leaflet to you proposing a mutually advantageous offer **to all of you**. I consider this offer a gift which is in fact the natural and original interrelationship format inherited from our forefathers in pre-historical ancient history.

It is giving and taking that do not involve the self because it benefits the giver and the taker. How is this? You see, the fact that giving to one another is the same as taking from

one another. There cannot be one who gives who cannot take and there cannot be one who takes who cannot give.

I can start this process by providing or asking for a place or a simple filing cabinet where I will voluntarily place a book or more, to start off, which will be available for everyone to read provided that the person who takes it to read at home will first leave one of their own for another to read and then to return the book to make it available to the other who is interested in reading it, and so on. This, for the pleasure of reading different books without needing to buy them at all.

Note that the "gift" will not be confined to books but can include food, among other things, handled in the same arrangement. Obviously, I cannot do this alone. As I give my time and resources so shall I expect help from those dear ones who are willing to provide their own humble resources, which illustrates the mutual give-and-take in setting up this noble and worthy project meant to benefit all in our neighborhood.

Feel free to contact me or come to my home with small donations such as a book, writing, or even a story written down by a family member as relayed to children, or a health remedy; a small bag of rice, or some other food staple. We shall detail below those much needed items and suggestion for a soup. Remember the food is for ones who have nothing or near to nothing to eat. Thank you!

As an amplification let me just stress that the gift-sharing process must come from the heart much as this stage I started out of the goodness of my heart. That means, without sincerity, the voluntary and selfless nature of gift-giving will not bear fruit.

Contributions may not be in the form of money, which everyone needs, but little thoughts would come a long way. It is people helping people in looking after each other in ways corporate finance will not.

For instance, donating a book for everyone should not be a one-way street, much less cooking or giving food.

Things handed out or donated, for the spirit of mutual sharing to prosper, must be reciprocated no matter how little. Henceforth will I start this process with the end view to benefit everyone from the joy of mutual flowering of gifts for everyone, without exception.

"In order to dispel any ambiguities to the Gift project already laid out, let me please itemize some clarifications in brief:

1. By this concept of Mutual Gift Sharing project is not meant to assume any hint of "charities" given out like a one-way street. On the contrary, we are laying the foundation, brick by brick, of communal sharing, and not dependence on anyone who gives or

donates. In short, it is literally a "scratch my back and I will scratch yours" kind of sharing. That much should be clear enough.

2. In plain words, no money, no peso will be involved. Only in kind like a donation of book, food or effort in doing it, sharing experiences in writing, etc. will suffice, which should be matched by things equally in kind to reciprocate the goodwill gesture. No one, whether the giver or the taker, will go home empty-handed."

3. Those, of course, who are disinterested, indifferent, and cynical; who do not want to be part of this venture are encouraged to not take advantage of it by stealth, and to leave the initiators in peace.

REMEMBER!

EVERYONE IS A PART OF THE NEIGHBOURHOOD!

EVERYONE NEEDS TO EAT!

EVERYONE IS JUST AS IMPORTANT AS EVERYONE ELSE

In addition to books some may contribute just one plate or bowl and cup so there are several

Some may contribute knives, forks or spoons, some may contribute purified water
Others may contribute rice while another may pick up the rice and cook it

PEOPLES, a housing crisis only looms in the face of the antagonisers and the famous astrologers of the many events past have all encrypted within the placement of the stars in your heavens the rhetoric that the gulf tide of waves need supplement no other than the fish and fawn of the sea.

When money is used to bridge the gap, there shall always be a gap to fill, and where there is a gap to fill, someone will always fall through the cracks.

The BLUEPRINT Philippines

FEDERALISM: *State controlled will bring about problematic events if organized in the common tradition.*

Listed: Criteria for problematic events explained:

1. Do not fragment into separate States where the Central Government or Council stands apart from the Sectional Councils throughout the Islands of the Philippines.

2. The Sectional Councils shall be the same set up standard of the Central Council or Government; however, they shall not be a stand-alone otherwise the Sectional Councils shall determine the criteria and if the Sectional and Central Councils or Governments are not working as pre-determined in the blueprint under the cooperation of the Original Economic System then indeed shall the Sectional Council or Governments quietly

continue in promotion of the drug trade for monetary means in order to raise more finances for their Sections and crime will continue to prevail.

3. *There must be safeguards* put in place while the transition out of the capitalist monetary system takes place. However, too many safeguards would merely become a headache to the new Central Council or Government because the many hidden clauses in print and schemes which exist today would result in being secretly kept away from the Central Council or Government and this must be prevented.

4. *The Constitution* does in no wise need remodeled. The Constitution needs replaced because the Constitution was drawn up and modified as to the enlightenment and understanding of the days gone by. A band-aid approach will only lead to the dissolvment of the Federated Original System for the Peoples, by the Peoples own hand if nuts cracked do not belong in the oyster, so to speak.

5. *Should the Sectional Councils* control their own designated sections apart from the Central Council or Government, War Lords shall either continue or be established and nothing shall change for the Peoples who will then continue to live in a warshed of tyrannical illusion as being for the good of all.

6. *The Original System of Federalism* as ye ones so quaintly call it is not in any wise a dictatorship. It cannot become a dictatorship simply due to the fact that the round table of twelve to twenty-four has the stability of equal number of both men and women not forsaking a child or more beyond his or her intellectual means of mind, control of self in both wisdom and understanding and previous life experience therein there shall not be the control of only one or two. The same set-up of council must stand in each and every Sector in order to prevent one man rule or anarchy stemming from those whose eyesight is faint with the understanding of past tradition not pertaining to the Original System as first placed upon this world by the pioneering races from other world planets.

RESOURCES – HUMAN – LABOUR: EDUCATION AND JOB PLACEMENT

It is necessary to not only put your effort as a nation into the next generation, but is also necessary to “reclaim” those of the present and previous generations if their crimes are not ones of great tendency toward the premeditated harm of others.

We proceed with the prison system which is a main criteria in the Philippines at this present hour of the day. May nightfall not come upon them all.

PRISON SYSTEM

Possibilities of Excellence in REHABILITATION

ISLAND PLACEMENT

As we have formerly stated if a number of Islands are sectioned off and protected by Navy and Coast Guards the inmates who have volunteered and not volunteered to become rehabilitated will have the necessary methods available to them for full recovery.

For instance, they will have at their disposal surfing, swimming, wading, beach basketball, ping-pong tables, races around the Island for the building up of endurance which also tones the mind, short sprints, art classes, instrumental music lessons with all instruments provided, culinary arts where those with such talents may also become the instructors; hard core drug dealers and addicts would be placed upon another Island but be ferried to the lesser addicted inmates to hold classes on why drugs and their effects are so dangerous to themselves and the disastrous effect drugs have upon their families and the families of those they sold to. Allow the inmates to view on video as well what their actions did while they were dealing or using.

One of the main objectives will be the great question the inmates will all have and do have we are sure and that is this:

“What happens after rehab?”

A very good question because should the system remain the same these same people will only face a reintroduction into the drug trade as pushers or users if there be no mechanism in place in providing them with an opportunity and challenge to excel in a pleasurable and fulfilling life in building and creating for themselves and the society around them of which they will integrate again into where the monetary bill is not in power over their lives any longer as held in the hands of those who threaten and malign them and their families unto physical death.

There is nothing for the inmates more frightening than going to jail, facing more horror there, and then knowing they will face the same injury and worse right back out in the streets where they face a bullet in return for their good faith that Federalism was going to be their light at the end of a long and horrible tunnel.

PLAYGROUND Parks:

Listed: Criteria for problematic events explained:

Possibilities of Excellence:

After space is opened which we have explained place enough parks in designated areas for the peoples all to attend toward their own pleasure. Within these parks can small activities be addressed such as art sculpturing, paintings, small carvings, and other instruction which shall enhance the education of the children and guide them toward understanding where their talents lie.

Instead of importing plants, design the parks carefully and beautifully with trees and bushes and with the peoples own cultural imaginings and designs on small buildings which would house the small art schools for small ones in particular and singing instruction also keeping the music within range with no reverberating throughout the neighbourhood.

HOUSING:

Possibilities of Excellence:

How to open up space:

On how to effect communities of crowded housing into equitable architecture with spaces for gardens and how to relocate a number of residents to their own satisfaction and pleasure in a state of being.

Utilise your assets. Your assets are your Islands. Relocate families who work in a similar genre to the necessary number of Islands. Allow them the freedom in building what they need and wish within reason for their habitation.

If one family is a family of carpenters then relocate other families in the district to an Island and also at the centre of the Island place a school of Carpentry Achievement in upgrading their work or in allowing them to also instruct others in the art of carpentry and intricate accomplishments.

These products can then be traded throughout the Islands and those of the ASEAN Nation for wares which their peoples develop especially speaking here of those whose education is not of university attunement. All life has their value and tourists may also frequent these partisans within the Islands in cooperating with other genres and talents such as carpet weaving and so on.

With certain families working in these capabilities having been relocated to pleasant and close-by Islands which may also house parks for the youngsters, this will free up space in the districts where they have been originally housed in the overcrowded cities.

Instead of bulldozing their ancestral homes with them in it for industrial space, (instead) (they should) allow the ones remaining to grow their own gardens and ensure the youngsters have adequate playgrounds to walk their animals, to enjoy each other's

company and to allow the adults the opportunity for a stroll among trees and beautiful scented flowers.

In other words, “organize” the peoples who are the labourers, into groups and place each genre upon designated Islands.

In this wise also, those who rarely have the opportunity to enjoy their very homeland by the occasional jaunt to the sea, which many could otherwise never afford to see in their lifetime will instead enjoy a life of greater excitement and opportunity and the Great Islands of the Philippines would become in Tourism alone one of the most sought-after enjoyments through their visitation to the Cultural Islands under their care and instruction as well as the Tourists enjoying each School and Discipline of Achievement as they travel from one Island to the next gathering the wares of the peoples whose talents created them.

We shall continue in our placing of “suggestions” for the all of ye toward that of your understanding and consideration in regions particularity whose life is less than pleasant.

When reckless spending suffers the nation into further debt just for the presumability of Senators and Congress taking a seat for a year further within a system which does obviously not work for the Peoples and for the Nation, then by which charlatan does he or she add to the pot the grace which belongs all to the People?

DEPARTMENT OF AGRICULTURE AND HEALTH

CONTINUITY *is the existing format of excellent planning and one which does NOT require monetary means in order to facilitate the necessary means of adjustment from one criteria or system toward that of another.*

Contraband substances can be replaced with substances of good medicinal control to be grown and attended to by both agricultural and health practitioners.

With 7500 islands the quantity and calibre of food grown can be stupendous therein feeding an entire nation and more; with exports without duty or tariffs of any kind exhibiting straight trade for rice and soy for tofu, for example, to another ASEAN nation within the Central Asean Nation conglomerate.

No machinery costing the nation and the nation's peoples hundreds of thousands of pesos will be needed due to the very fact that the labour force necessary can be found among the millions of Peoples inhabiting the Great Philippine Islands.

Gratis: This is ground roots to begin with for a nation to get upon its feet without an expenditure of hundreds of thousands to millions of pesos.

At cost the labourers will have shelter built by those who are the builders and in return the builders will have food and so will the planters of the crops. As the Philippines is tropical, shelters may be simply built with the resources of the many islands. Ferry boats or barges can be used for transportation and waterwheels on boats can use the natural resource of water of which the oceans have plenty. Why go into debt just to look good to the world when wisdom dictates that the logical and sensible move is to harness the labour force of the Peoples in order to keep the resources within the nation instead of giving the resources and the labour force of the Peoples to the corporate powers and to feed the capitalist system of banking?

LOGISTICS AND SENSIBILITIES:

After all how can the resources of the nation and of the people be of the people and for the people if the resources of the nation are given to and of the corporations and for the bankers? Linger not and tarry with the money of the bankers for retinue is the active worth of ne'er the peoples but the charlatan of the day.

HEALTH - BUILDING CELLULAR STRUCTURE OF PRODUCE

While the Philippines espouse the Lilliputian produce, it does in no manner need to remain that way. Non-GMO produce can be well calculated and created within the scientific and ingenious laboratories of the Great Islands of the Philippines.

PROTECTION OF THE ISLANDS:

The islands need protection and security from those who would think and strive to impose themselves upon the hindering of the growing and cultivating of produce. This is where the Coast Guards and Navy come into play. They must monitor the barges and ferryboats delivering resources of both living accommodations made by the hands of the Peoples, themselves, and other resources for simple yet fashionable living dwellings according to the wishes of the Peoples, involved.

For those navies of other lands within the Asean Central Nation and whom assist and whom are assisting at the present hour the navy of the Great Philippine Islands, this food grown in great and large quantities shall also serve in feeding them all as well.

In essence it is to be known that when leadership utilizes the resources of their own nation they will find little need for importation nor exportation save that for the paltry items which cannot be homemade nor homegrown, and of those, the nation and its leadership shall find that the “word” BUDGET shall well disappear, and no longer form as a “stop-gap” for building the nation. To continue along the same path would be to budget the nation into erosion under the high pretence of its being an injunction of gold.

The ancient past since inception is not, as we know it, a single past but had been preceded by earlier beginnings of civilizations that all met their doom and destruction. Attn: President Duterte, "Sir,"

We shall be brief and to the point.

In great reference to the issue at hand and that is of the discussion on the table in reference to the drug shabu.

As you cannot bring up such instances in the house of President Xi Jinping, it would be a "wise" move to invite the good and dignified President Xi Jinping to the house of the Philippines for such a discussion in relation to his cordoning off and securing the borders of China, as to not enable the drug cartel from entering the waters of the Great Islands of the Philippines from China, and that the Philippines shall do their utmost best to see Chinese borders safe also in relation to the safe borders of the Philippines. which are also being guarded by other Asean Nations of One at large.

This is "not" advising President Xi Jinping on how to govern his nation, this is two leaders of caring worth of their nations in relation to population control by the cartels of the conglomerate banking and corporate industries, and of this should a prerequisite be set for the good of all Asean Nations, and China, outlying just off the Philippines is in an actively secure position in carrying out such command.

And taking all into consideration...

Forgive each other's debts and write the debts off saving each nation billions to trillions in your own home currencies. This is precisely what the banks do for themselves, therein, nations doing the same is what begets a nation into its own independence. A conglomerate is a group of nations which work together for a single goal yet maintain their independence.

P7.16 Trillion in debt for the Philippines is not only a horror story but totally unnecessary in light of the Brother and Sisterhood within the conglomerate of the Asean Central Nation.

For as long as you continue in using money in any of its formats as a method of payment, you will only continue to uphold the variance of capitalism and whose money is paced against whom.

The moment you use currency in any of its formations you fall outside of Universal Principle carrying instead the continuous momentum for upholding usury in all of its formats as well. This accumulated interest is what puts nations so far in debt above the principle requirement.

Inflation is an act of usury and is designed to work the monetary system not only against itself but against the peoples.

Inflation will, in fact, ensure that the peoples somewhere along the line will fall through the cracks of consumption.

Now let us again look at how inflation is falsely created and what keeps it in operation.

AN EXCERPT FROM THE BLUEPRINT OF PARADISICAL ECONOMICS AND SOCIETAL STRUCTURE:

Under the present system, this people suffering, people hating, monetary system, the hospital would look like this and be paid for under currency, low wages, and reba or pesos (or whichever currency) four times by the people.

Here is how it works.

The contractors borrow money from the banker or several bankers amalgamating their debt load into one massive tribulation.

Then the contractors hire people to build the hospital.

The hospital will be built solidly but yet in an inexpensive way as possible in order for the Contracting company or companies to make as much off their profession as possible.

Next come the workers who are paid as low a salary as the Contractor can possibly get away with.

*That is the first instalment.
The borrowing aspect from the Continental Banks.*

Offshore Providential.

Then when the hospital, dully as it looks, is fully completed, the banker wants paid back.

This is the second instalment.

So both the Contractor and the workers have to take on another job just to pay back to the banker the first job.

When the first job of building the hospital is paid back in all expenses of the borrowing costs, then the city tells the people that they must now pay fees in order to use the communal building, in this case hospital fees or if it is a library, then library fees, or if it is a museum, then fees to go in and look at the museum.

This is but an example.

This is the third instalment.

Then the people are told after they built the hospital, paid the banker back and paid the fees to attend the facility, that they must now pay land taxes, upkeep taxes of the building and while the people are paying all these extra usuries out of their meagre wages, they are having to pay back the money to the banker for the first costs of yet another loan for yet another building.

This is the fourth instalment.

*In addition to this, of course, the people are told that it will be several years until just so many budgeted contracts are able to be manifested for the people to attend.
This is the fifth coming into play.*

Borrowed monies for the hospital over a twenty-five year term, cost the taxpayer ten times its original value by the time it is paid for.

This is the present system you operate under fully today.

What we offer is naught made in hell.

But in Heaven or rather to be more precise, upon other worlds, other planets, who have learned that the money system corrupts the best of men and women at times and therein should never be used as a trading currency, for with the currency comes the infraction of breaking all Universal Laws and then comes the usury.

It does naught take three years to restore all power and electricity to Iraq, for instance having been bombed almost out of existence; That is ridiculous! Only under the present hegemonic economic budgeted system would that be a priority to wait that long for full power nationwide. – I am Uthrania Seila Sentana-Ries and this is our portion of this day to the each of you.

Wrong choices and doing things the hard way are due to man's chaotic ego. - Jamie SR Cortez, *a representative of the Federation of Unified and Free Planetary World NATION*

NOTATION:

The fact is, the topic of religion has long been a hurdle to their beginning understanding of the total concept of paradise.

Speaking of the great masses, in the Philippine settings, there are at least 3 red herrings, so to speak, that drive away the people's (the masses') attention to the building of paradise. One, as I just said, is religion. It is a topic that is emotionally charged when discussed among the misguided, generally speaking. In that sense, people would not budge an inch on the issue of their faith they were born in and with, as passed down from their parents. Total submission to god and blind reliance on this entity are what drives them to surrender everything to it and just wait and remain passive in order to expect something prayed for to arrive, in return. I need not add more.

Second is education. People living in abject poverty cannot afford to send their children to school as in fact their parents' parents could not either, *so there is a chain or domino effect.* It is one among many reasons why religious people live in indolence and idleness instead of working to live in order that their children can learn in school. They always expect *"manna from heaven."* So that is basically an attitude problem. In fairness, the basic literacy rate among females in the *Philippines is 96.1%, males, 95.1%* (Googled data, 2018).

Third is lack of informed awareness on Population (self-)Control. Birth occurs the most frequently among Filipinos mired in poverty, again because of lack of jobs and education. *"The current population of the Philippines is 107,020,239 as of Monday, October 29, 2018, based on the latest United Nations estimates. the Philippines population is equivalent to 1.4% of the total world population."*

Post Script: Compare the population of the Philippines living in a small country with that of Canada, "Canada Population 2018. In 2018, Canada has an estimated population of 36.95 million, which ranks 38th in the world. Canada is the world's second largest country by total area (behind Russia) and the largest North American country.Sep 17, 2018!"

Every family is entitled to a plot of land to grow vegetables, trees and flowers and to build a house suitable for the size of their family. There will be no mansions nor castles. Each family will attend a school to learn requirements for house size and building code expectations. These schools will be within each district. If a family is ‘expecting’ or chooses to house their elderly then the permit they are given will reflect the suitable size of the home. Each family, however, will be permitted to choose the materials for their homes, such as marble floors, or hardwood floors. In return their own talents will be required by others.

Each home will be equipped with windpower windmills in their rooftops as well as solar power either in the roof, or walls or both. All wind and solar power goes into the grid. The grid consists of all transmission lines supplying the peoples electrical needs nationwide until such hour as the need for electrical cables has passed.

Farms will be also equipped with both and must provide heated accommodations for their animals during the cold season especially in the northern regions.

Each home will have gunsafes. The key to this room will be held by the heads or head *if there is only one parent, or eldest sibling no younger than sixteen years of age,* of the family. In the event of an invasion the Village, Town or City they live in, will sound an alarm and the districts will immediately arm and wait for further coded instructions from the Security Panel who will continue to inform the Villages, Towns or Cities.

THE SAFEGUARD AGAINST ALL CRIME:

Possibilities of Excellence:

THE SAFEGUARD AGAINST ALL CRIME:

For those who say to us: *"then how do we keep the People, Groups and others honest in order that they do not cheat one another or that leaderships do not cheat one another, or nations do not cheat one another?"*

We say to ye ones, that the Federation of Unified Nations have a safeguard built in. What happens here is that the moment one cheats another by, for example, not delivering their part of the **Purchase Order** or **bargain**, such as delivering items, after they have received what they had **Purchased**; or people who exchange **talents** do not deliver their part of the bargain on the **Purchase Order** from their district or another district, the moment that **Word** gets out, these ones **will be automatically boycotted by People on all levels:**

From the grassroots up: their neighbours; stores; material Majlis or Councils; right up to the Greater Enlightened Leaderships who handle the exchange of oil, gas and other resources with other Federated Central ASEAN Nations.

Let it be known that the hour has well progressed into green energy and in this instance shall the nations have no more cause to fight over oil and gas nor to rely upon either for the vehicles which can be brought into the foreground with the reliability of electric, water and magnetics for their fuel, so to speak.

But billions will be lost in revenue to the corporations and the banking facilities so they are the Peoples worst enemies, but the Peoples can change all that for ye Ones are the buyers of all the products. The oil spills are killing all in the waters of the sealife of which depend upon you, the Peoples, for their caretaking.

This boycott will also apply to blackmail or framing another for any reason. This will be dealt with immediately by the People's Majlis or Council. These will be considered *"dangerous acts"* against your neighbours, whether be family members or not.

The length of boycott will be determined by the severity of the act of cheating, blackmail or the framing of another. The Enlightened Leader of the People's Majlis will determine the boycott's effect upon the person or people in deciding the length of its duration.

The spider who weaves a web to trap another will inevitably be ensnared in a web of its own.

Should a dispute be serious enough, such as murder or rape, the People's Majlis or Council will immediately take this problem to the Enlightened Leadership of the Province or Ummah, = the village or town within the Province, who in turn will take the

issue to the Enlightened Leadership of their UMMAH or Province who will “advise” as to the immediate concern and application.

The offenders will be removed from the UMMAH or Province and placed upon a segregated island protected by the Navy and these inmates will share such island or islands with others more “attuned” to their nature.

If a man, woman or child accuses another falsely, then that “punishment” will fall upon the shoulders of the accused.

We employ different types of Majlis or Councils of Enlightened men and woman nor forsaking the child in genius form in the Federation of Unified Nations, therein are many empty chairs to be filled which will way surpass the chairs of the Senate and Congress put together.

So you see it does not pay to be a cheat. The Federation of Unified and Free Planetary Worlds’ economic system of Talent and Purchase Orders keep the People from engaging in criminal activities of any kind.

If we find any Persons engaging in serious criminal activities against their sisters and brethren, their Ummah or village or town, or their UMMAH or Province, or CENTRAL Enlightened UMMAH, the Twenty-Four Council of the NATION, then these people shall be immediately removed out of the Federation of Unified Nations and will be removed to one of the sectioned off islands.

Depending upon the severity of the crime, the nature of the world they are taken to will see them residing alongside and governed by those much like themselves.

The BLUEPRINT Philippines

GYMS, VACATIONS, AND VEHICLES TO OWN:

Listed: Criteria for problematic events explained:

Possibilities of Excellence:

EXERCISE GYMS:

These will be placed within each district, however, because of much activity in building together the Paradise within the Philippines or any other nation, these gyms are likely not to be used to any great degree.

VACATIONS OUTSIDE OF THE PHILIPPINES:

Each district will sport a Vacation Majlis or Vacation Council to serve the people.

There is a difference between leisure time and a vacation. Leisure time is the time you spend around your own home or little paradise whilst vacations are arranged for your pleasure outside of the country in which one resides. All is free. Travel, accommodations, sightseeing, etc. However, there will be no interference in the designated country's system nor culture. Learn from one another in agreement and share the good aspects one to another and learn from them also.

After so many hours of work, arrangements will be made for vacation. For instance, if work is in a factory, so many hours must be accumulated, or if you are an engineer so many hours at a project must be accumulated. You must not stop in the middle of a project unless consensus is made between yourself and another to take your place.

For those who work from their homes and have only themselves to talent out to another, a certain number of accumulated hours must be drawn up. All these hours will then at the finish of a labour or job, be given to the Material Majlis or Material Council who will then enter the hours in the central computer and those hours will then be accessed through computer from the Vacation Majlis or Material Council when a request is made for vacation time.

VEHICLES TO OWN:

Vehicles are also free. But the type of vehicle must be earned. For example: If a person wants a Mercedes, for instance, then the Automotive Dealer will contact the Material Majlis's (or Material Council's) central computer to find out if that person has earned enough hours utilizing his or her talents and to what extent, in order to be credited such a prestigious vehicle. If not, then the person will be credited with a vehicle of his or her current status. But a vehicle will be given.

273. The Great Circle Of Consumer Goods – A Deadly Game (Part 3)

10.22.2016

PHARMACEUTICAL DRUG MARKET AND ITS COMPANION THE MEAT, DAIRY AND EGG MARKET

Both street drugs as well as pharmaceutical drugs equal themselves in deadly capability, and uncontrolled, kill families, destroy lives, and bankrupt the PEOPLES pocketbooks.

Without coverage one-hundred diabetic strips used for measuring blood sugar levels cost here in Canada eighty-four dollars and ninety-nine cents for strips which are rationed at around one thousand percentage higher in cost than it costs to make them in the factories.

The majority of diseases are created though the consumption of meat, dairy and eggs combined with pharmaceutical drugs uncontrolled in their contents.

The meat industry work hand in hand with these pharmaceutical conglomerates giving much business toward the funeral homes and so on so that more than the Human cost of those diseases are added to by the consumer having to buy “Life Insurance” early because of the ratio of “diseases out there” the patient is told, and added to this is the quick disintegration of the family pocket-book even those under coverage or medical which in many places has already been privatized and remodeled.

With fewer doctors manning the hospitals in the West and nurses gone over the boarder to the States, there are fewer services and as one doctor told us: “We doctors do not know what is going on in government that the hospitals are all shutting down in outlying areas and at that hour only two doctors were manning the hospital while at the same hour running full time medical clinics for the consumer.

Red Cross selling all its high technical equipment for loss of revenue.

So you see, dear Ones, one and all, it is the hour to move away and transition to the Original System of Economics of Talents and Purchase Orders and of this shall we go into just a little further before you allow the banker and all its teller outfits, so to speak, to sink the boats of each and every one of you.

Did ye Ones also know that within many hospitals if not all when a child is born a syringe is inserted into the crown or top of the cranium and many of those babies when entering their first several years are not acting normal in a positive way but something seems to be very very wrong with them?

Then when they enter school years they are segregated or put on drugs because such children have had needles inserted into their craniums when they were born.

But do the parents know why?

The consumer is taught by the doctors who are taught in medical schools and though many doctors now know what is dangerous to the consumer or patient, they dare not speak out nor go against the establishment for fear of their own future or assassination of themselves.

The laboratory workers in many hospitals across the continents face the same danger.

Do some research, ye Ones of the most gullibility whom also allow injections into the arm of your young ones in this age and hour.

Now, connect how this all works together in one gigantic circle for ye Ones are all tied into a grid and a most dangerous one for yourselves and your children and your elderly and sometimes unfit ones who are paralyzed from the neck down and from inside the very mind they inhibit as their own.

EXTREME CASES OF PAIN - WHAT THEN?

In extreme cases of pain there is always an exception.

However, monitoring the sensation of pain must be done with compassion and not foolishness for all has its place and the only killers which are good are the killers of physical pain and at certain hours such as morphine need be used at this hour; yet drug dealing is drug dealing and pushers are pushers and sellers are sellers and that is the crux of it;

and those ones need as much freed from the system of monetary exclusion of most global populations than anyone else, for most, if not all, are victims of the same cycle of capitalism from the downgraded system of economics which this world had once known at the hour and events taken into the pioneering and seeding of this world. And the pharmaceutical corporations will corner every nook and nanny of every market they can get their hands into including the cannabis market where they have already diluted the cannabis with extracts of “other” drugs and intend upon the control of that market as well as Doctors and Nurses and Government policies.

BIG BUSINESS ALL ROLLED UP INTO ONE DEADLY PACKAGE

The food Industry is big business with its deadly chemical composition which you eat all of your life. The meat-slaughter houses is big business for meat, dairy and eggs are all wine to your souls and is killing you mouthful by mouthful, your children and your pets.

The poisoning of water is big business and not all water through “sanctified” outlets you buy are pure by any means; many are just tap water with a little smelt chlorine in them. The plastic bottles water and drinks are kept in are also big industry for often the bottles leak deadly chemicals.

The manufacturing of diseases is big business. Mort-uaries and their Funeral parlors are big business.

We are completed this portion for the reminder and enhancing you, the PEOPLES, understanding of the grid-wheel you are on and after one more short portion we shall speak of the solution in greater detail.

This life is not the only one ye Ones are to live. Make sure you make the correct decisions and build a good one for ye Ones shall be entering back into it upon your next incarnation either upon this world or that of another.

Good Evening and Good Night. (portion continued from yesterday)

Part 4 - Hardware Stores and Carpentry - Next - with the Solution Part 5 to follow. Please add on to what has already been given, ye Ones upon the other side of the world.

274. 310216 Round Table Conference of ASEAN FOREIGN MINISTERS INCLUDING CHINA Requested

Request: 2.28.2016

SE Asian foreign ministers voice concerns on South China Sea

<http://www.philstar.com/world/2016/...>

Notation: To the ten Foreign Ministers of the ASEAN CENTRAL NATION: We have noticed that the comment we had placed in the outside in "comments" toward alerting you to our answer we had left you in the Daily Memorandum Philippines as to your concern had been deleted by someone and what had alerted us was the fact that the next day you had your request again printed in huge letters in the paper the Philstar. Please, Sirs, access and scroll down almost mid-way in the Daily Memorandum Philippines to find our reply as of the other day. - Uthrania Seila Sentana-Ries Cortez, a representative of the Federation of Unified and Free Planetary Worlds

Notation: We felt it to be more appropriate to hold this Conference upon neutral ground in a Round Table Sessions rather than in the initially described location. Thank you. Please access throughout the day. Thank you most kindly.

ASEAN Foreign Ministers, Defense Secretary Voltaire Gazmin, and special guest Israeli Ambassador to the Philippines Effie Ben Matityau, this is an open session because the Federation of Unified and Free Planetary Worlds do not believe in hiding information which concerns the Peoples of the NATIONS from the Peoples of the NATIONS especially during an hour where some feel it is necessary to protect one part of ASEA from another part of ASEA. It is called “realistic transparency.”

Sirs and Madams, we welcome you all to the Federation Round Table of Non-Dispute and are looking forward to a beginning of “realistic” progression in our talks. As we are all well aware this will not be handled in one day or sitting due to the need for our equal reviewing of “ALL” new information placed before the each one of us, for thorough consideration before deliberations are possible.

We need to clear our minds, each one of us in order that we might come to this table of “NON-DISPUTE” together with a rational and quiet mind.

We will be adding to these protraction, shall we say, as we go along throughout the day in order that greater insight may continually be brought before this council.

Heated arguments have no place at this Table and so with no further adieu, let us please begin.

Our first concern is not that the brotherly NATION of China have not voiced their concerns, they have and through many hours of events, but strategically speaking in all diplomatic sense, all sides must “respect” the other and in doing so speak “kindly” OF and TO one another.

Unfortunately, we begin with itinerary, for all must be heard and listened to, which was produced “prior” to these proceedings, and are of such a nature of tone which indeed does not lend any note of tranquility and peace of mind to the sense of our mandatory “NON-DISPUTE” among all members of ASEA, therein all “future” submissions to the Philstar News must contain “respectful” verbiage otherwise we shall not present it

at our Table we are seated at with our Brothers and Sisters here today, and our Guest.

We shall move forward by briefly examining these submissions, the first of which, should this Table ever receive such “disrespectful” observance toward this “NON-AGGRESSIVE” Conference in submission, we shall “immediately” disregard the concern completely.

Eliciting rage or anger is “NOT” the proper attitude in solving any criteria and we simply, as we have stressed, shall not put up with it.

To our Chinese brother and sister NATION of ASEA, do we at this Round Table of NON-DISPUTE, first offer up our apologies *for this first and only submission of such nature.*

1) Foreign Minister Wang Yi, Sir, your comment back to the “accusations” is not warranted in using such a tone and unfriendly manner any more than the “placards” at the top of the news-article does little to incite anger. Please, Sir, let us conduct ourselves in a “manner” befitting and representing those whose leadership in China whose “demonstrates clarity and “friendliness in ‘all aspects’ as to your words, Foreign Minister Wang Yi, Sir, that The Hague was **“irresponsible to the Filipino people and the future of the Philippines.” We know de Hague sits in Europe and Europe has it own goals,** nonetheless, the sitting magistrates of de Hague we have found, as we mentioned before, to, be men and women of goodly conscience **once error is pointed out** as you have so “eloquently” done to the burning of their ears.

It is “not” what we say, Sir, in some instances, but rather “how” we say it, Sir. Thank you.

Foreign Minister, it does not matter how great the prospect of a complete and worthy goal or agenda on behalf of all participants of ASEAN NATIONS one might have, “if” the presentation places other ASEAN Foreign Ministers in a “concerned” mode or emotion.

This does not in any wise serve the Chinese interests of great foresight as to how to improve upon the economic climate of ASEA and indeed the world in trade utilizing the Talent and Purchase Order System of Economics and Social Grace, unless you, as Foreign Minister of high placement in the Chinese Government **“convincing”** so *as to alleviate war*, the other brotherly and sisterly ASEAN NATIONS of **their Chinese brothers and sisters goodly intent. This goodly intent needs to also be demonstrated at sea, and should ill reports or falsifications be directed toward the Chinese as recorded in this “article” then this conference must be aware of the Chinese voice on the matter.**

Unless the Talent and Purchase Order System is put in place rapidly, not all ASEAN NATIONS will benefit. But should the Talent and Purchase Order System be put in place as of the immediate hour and by looking at world stocks and the overall climate, this does seem the appropriate hour to do so.

ALL ASEAN BROTHERLY AND SISTERLY NEIGHBOURS WILL BENEFIT “EQUALLY” WITH CHINA AND PEACE WILL BE THE STANDARD OF THE CENTRAL ASEAN NATION AS ONE PEOPLE, AS ONE WHOLE, IN THAT PART OF THE WORLD AND THEREIN WILL CHINA HAVE SET A PRECEDENCE, AND BE WELL CONGRATULATED FOR IT.

1) Foreign Affairs Secretary Albert del Rosario, Sir, your cutting presentation considering the arbitration ruling at de Hague and all of its implications purely based upon old outmoded and confusing **“Freedom of Navigation Laws”** which serve another part of the world, leaves much to be desired, for if the “International Community” feel “before” they even hear the complete information, **and ignore the intent of the previous objection by the Chinese for de Hague on the other side of the world to offer up the judgment, then how on earth can one standardize and rule upon previous and confusing “Freedom of Navigation Laws”** of which the ASEAN NATIONS are facing in that sector of the world when all ears seem to be on “close” rather than on “open” with the minds to match on entirely due to **“not enough information of disclosure from the Chinese,”** and **“a misunderstanding by the majority of the ASEAN NATIONS as to China’s good intent,** bringing forth actions of fear which result in conflict of “posturing” by both side upon the seas which belong to them all?

And the Americans in there only make it worse with their “threats” of war against China. Laws need to be clear, simple and short, and at times amended but the best “Law” or “Principle” which holds water, so to speak, **is that the ASEAN SEA belongs to all the NATIONS in ASEA** and when more advanced economical trade is put in place with the Talent and Purchase Order System then “war” will be permanently a thing of the past for what brings about war is concern and determination to be number one or number two in trade benefits and monetary economic acclaim, many leaders in this wise, even unknowingly, sacrificing their People in yet another “war” to satisfy their perceived national need for the almighty U.S. Dollar, or Chinese Yuan. (**Note:** Our apologies for misspelling your currency, Sir).

https://www.itlos.org/fileadmin/itlos/documents/statements_of_president/wolfrum/freedom_navigation_080108_eng.pdf

A “simple” and new law of “Freedom of Navigation” need be drawn up or the old one greatly amended. Thank you also, Sir, for your ear.

2) <http://www.philstar.com/headlines/2016/03/01/1558232/philippines-japan-ink-deal-defense-equipment>

2) Defense Secretary Voltaire Gazmin, Sir, it is a pleasure to also meet with you at our Round Table of Non-Dispute. **Sir, if we may, we would like for the benefit of our readers to exact your methodology of turning what could have been seen as “negative” into the “positive.”**

We, ourselves appreciate such worthy guidance to our pen, as well. Here are your words presented in a non-aggressive attire which is just as important if not more so than what the words in themselves might further suggest:

“Japan is offering a surveillance aircraft at the moment, but nothing is final,” Gazmin said when asked what defense equipment Japan would transfer to the Philippines.”

“This agreement would really substantiate the Philippines and Japan being strategic partners. And the transfer of equipment would enable our sides to conduct joint research, development and production projects,” Gazmin said.”

Thank you for such a well-thought out non-aggressive presentation, Sir, from which we can all learn.

“Defense Secretary Voltaire Gazmin said the Philippines is the first country in Southeast Asian and the third in the world with which Japan has such an agreement”

Now, it is interesting to learn that Japan has already **“initiated,”** along with their signatory from the **Islands of the Philippines, your ASEAN brotherly-sisterly NATION,** the very first precept in strategic security toward **“protecting”** the Silk Corridor and its initiators, **your ASEAN brotherly-sisterly NATION of China.**

We trust that all other upcoming “signatories” to this New Charter which Japan is the “first” to present shall be quickly endorsed by all CENTRAL ASEAN NATIONS including ratification by CHINA, as being one of the leading signatories in demonstrating Chinese “intent” upon also “providing” protection for its brotherly-sisterly ASEAN FAMILY OF NATIONS.

Japan along with the Philippines is to be **“commended”** in their **“wisdom”** toward the nature of **“protection”** of one another **not-forsaking a one** within the **Whole ASEAN CENTRAL NATION.**

Here has the example been given that the “negative” nature of “preparing for war” has been “cultivated” to the “positive” in that **“ONE BODY CANNOT FUNCTION COHERENTLY AND MAINTAINING THE BEST OF HEALTH WITHOUT THE WHOLE WORKING TOGETHER AS ONE UNIT WHICH MUST COMPRISE OF THE ENTIRE CENTRAL ASEAN NATION.**

*“Defense Secretary Voltaire Gazmin has added that: “...aside from mutual desire to enhance both countries’ defense capabilities, **the agreement would also contribute to regional peace.***

*“The defense chief called on both countries to look ahead and explore more mechanisms to deepen the partnership in information sharing **and possibly forge a visiting forces agreement (VFA).***

*“**Aside from the United States, the Philippines has a standing VFA with Australia.**”*

Sir, you truly are looking ahead for the interests of not only the CENTRAL ASEAN NATION WITHIN THE UPCOMING TALENT AND PURCHASE ORDER SYSTEM OF GREATER ECONOMICS, **but right now, the standing VFA would better be put “aside”** due to the “greater concerns” of at least one of them and that is the United States whose, shall we say, “inclination” is toward the multi-trillion dollar a year “monetary input” into their bank accounts.

Sir, until all signatories are in **from every ASEAN NATION, and a CENTRAL ASEAN NATION MEETING HELD with all participants,** the United States with its overtly “aggressive” outlook over the ASEAN SILK CORRIDOR serves in its lower attitude in hindering the new birth of the ASEAN CENTRAL NATION which, we believe, they would at this hour like to prevent.

Sir, please remember, the United States and any other NATION as residing “outside” at this hour of the ASEAN CENTRAL NATION whose **“intent” is upon subtracting the wages of the Peoples of the ASEAN CENTRAL NATION through corporate takeover of land through industrial prowess throwing only a few crumbs the way of the People of the ASEAN CENTRAL NATION would benefit themselves in a greater sense if they would see to setting up their own CENTRAL AMERICAN NATION** under the most paradisaical-loved TALENT AND PURCHASE ORDER SYSTEM as utilized by higher evolved paradisaical planetary worlds, and when that is accomplished **THEN AND ONLY THEN** will they be “ready” to “deal on an equal footing in trade” **holding no ASEAN NATION IN DEBT TO THEIR OVERLY AGGRESSIVE U.S. DOLLAR** and all incentive to **“OWN IT ALL” with a war-like attitude** shall give no more cause of concern to the friendly but **“wise” ASEAN CENTRAL NATION.**

Good Day, Sir, and *“thank you” for your ear.*

Notation: Chinese Foreign Minister Wang Yi, Sir, we have your two “concerns” which we will shortly address later this afternoon. *Thank you for your patience, Sir, in this wise. As you are all aware the next segment we had prepared in presenting the position of the Chinese had been somewhat extensive and after publication someone broke into this page and deleted the entire section. While we do apologize for events out of our control in that instant, we do intend upon representing the text again on our morrow. We had advised the members of this Conference as well as the Foreign Minister of China, Mr. Wang Yi, of this unfortunate delay of whose response was most courteous. Therein to cap the evening of this Conference off, we would like to present the latest word from the dignitary who had been so rudely cut off:*

<http://www.philstar.com/headlines/2016/03/01/1558402/china-we-have-legal-evidence-reject-arbitration>

Thank you, all, and we shall resume tomorrow morning. Salu.

3.2.2016

Good Morning, gentlemen and ladies, we have reprepared our deposition or further evidence toward your understanding that the ASEAN NATIONS have absolutely “nothing of concern to worry about with regard to the brother-sister ASEAN NATION of China who only intends overall to initiate the “very best” life has to offer for them all. With that word, let us now begin our day. We shall place this into italic for in order for all of you here today to easily scroll this page to find the portion on the Chinese stance.

Lean back gentlemen and ladies, and enjoy the presentation on video as we delve into the crux of the matter of much more unfounded concern and misinformation as given to the ASEAN WORLD by those forces which have their “own agenda,” and that agenda, ladies and gentlemen, is the agenda to take over all of your natural resources including that of the ASEAN NATION of China, build many more polluting industrial cities in land grabs, and using the Silk Corridors of the THE CENTRAL ASEAN NATION extending throughout the world, toward their own benefit and not yours.

Your brother-sister ASEAN NATION of China understands this mindset having worked along with the United States on ventures for so long, and now, for those new to this tyrannical game, perhaps this information, some of it new to some of your ears and some of it well known to the rest of you shall set your minds and pocketbooks at ease in realizing the best “advantage” you have right now in joining your own military to for CENTRAL ASEAN NATIONS’ protection of each other and the economic Silk Corridor is a sitting ASEAN Military, right at your doorsteps, and that is your brother-sister NATION of caring, China.

(we shall place our entry in now. thank you).

We would now like to hear from the Chinese Foreign Minister Wang Yi, keeping an open mind, “listening” for key words, and “remembering” what happened to “another” NATION during WWII who held the same system at that hour for the good of all Peoples, and how quickly the media by the powers which once-were, were given instructions to ban articles and blacklist leaders should socialism spread until the world no longer understood anything of its history during that hour except that “rewritten history” of the victor which was “forced” upon teachers to mandatorily subject their students to learn in schools and universities.

And of the “conquered,” their own photographs and monies are still being confiscated silently behind the scenes; and even the memories of that hour were restricted in that disinformation was continually fed to them throughout the years until a graph was drawn up and that graph was called “euniuchism” which simply meant that the powers-which-once were-so strong had forced the people to lose their inasfar as rising up against the protocol of the mainstream “doctrine” of the victor of that tragic war.

*But socialism was not the disease, and though there exists a part and portion of each system as endures in the world, today, there still needs to be put into place **the Original System of Talent and Purchase Orders BECAUSE it is the only system which cultivates equal ground in providing for the People on an “equal” basis with no bias toward even one.***

Within a monetary-based system one will always face the potential for war, for other governments and their NATIONS will see to it that they are one day mightier than the last or present economic strategy maneuvered. War machines will be built and currency will buy the nations who cannot be intimidated with threats. But what has all this to do with our topic of concern on the “Freedom of International Seas?” Just be patient, please, for there is a purpose for these many submissions.

*In this text, or speech, please realize this Conference is not here to deal with the present-day monetary system **but rather to deal with those criteria of inter-nation objectives** - those objectives which are being presented by Foreign Minister Wang Yi in relation to the new objective in a program which got off the ground in its mechanics due to foresight and wisdom several years ago by the brotherly-sisterly ASEAN NATION of China.*

Socialism was destroyed once again during WWII on a pretext of lies and misinformation. Socialism “owns” its own banks and currency “away” from the World Central Banks - (more than one, indeed). Each NATION of this global community has paid dearly for such bravery and that is also why our pen will never still until the monetary system becomes a system of the past and the Peoples and their NATIONS freed from the interrogation and the threats, blackmail, and framing of leaders and their NATIONS “when” they do not fall in line with the World Banking establishment of slavery and pestilence upon the NATIONS.

Protect your “leaders” also for the World Bank has a habit of “assassinating” those who prefer to free the Peoples of the NATIONS an install puppet leaders who will in no wise either dare to turn their backs upon the World Banking Conglomerate and its multi-corporations, for war is another incentive to obtain contracts to rebuild a nation, but how can any of those monetary contracts bring back loved ones to complete their lifejourneys with their families of any NATION?

*WE must all work ceaselessly to not allow the same intent of the World Banking corporate powers to further occur in ASEA because a foreign enterprise, the United States of America, refuses to get its own house in order preferring instead to occupy another with even more riches. And whomever stands with the United States at this hour such as Australia is being “encouraged” to do by the United States (yet so far has held off) with participation of its fleet of ships for the buildup **in the ASEAN CENTRAL NATION SILK CORRIDOR**, will indeed be fostering a replica, “almost” (but not entirely, for there existed another criteria there), of the beginning of another horrendous buildup to WWII.*

*The real “incentive” to WWII as U.S. Candidate Donald Trump so accurately surmised is **not “SYRIA”** at all but “rather” that it is the MULTI-BILLION DOLLAR ASEAN CENTRAL NATION SILK CORRIDOR.*

(Disclaimer: In no wise does the Federation of Unified and Free Planetary Worlds “ever” support any form of racist views upon any one person within this global community. – Uthrania Seila Sentana-Ries Cortez, a representative of the Federation of Unified and Free Planetary Worlds)

*In the next video clip we came across after our original text had been deleted, we also submit as supporting evidence in alleviating the concerns of the Foreign Minister representatives here today, in particular, in regard to the misinformation from the west. Each of you, Sirs, and Madams viewing this Conference from outside of its halls are also invited to attend this speech of excellence in both its diplomacy as well as “frankness” and “complete transparency” of the Chinese position as the Foreign Minister of China Wang Yi begins his discourse. Please place this video on full screen in order that you may all focus upon the “entire” speech. Thank you. **You may be surprised at all you hear. We promise you will “not” be bored.***

<http://csis.org/event/statesmens-forum-wang-yi-minister-foreign-affairs-prc>

*Please also examine the maps and information on the Silk Corridors of which there are six of them. (**Notation:** The par-excellent maps and information on this was also unlinked but not by Strafor themselves. We are currently looking for another which will remain upon this site).*

The ASEAN SILK CORRIDOR, ASEAN NATIONS, ALL BELONG TO YOU AS WELL. A GIFT OF THE BROTHERLY NATION OF CHINA AS YOU CARE FOR

ONE ANOTHER IN LOVE AND CONSIDERATION, IN HONESTY AND SELFLESSNESS, IN VISION LOSING NOTHING MORE TO THE CAPITALIST SYSTEM AND THEIR CENTRAL BANKS WHOM WE COULD CALL THE “REAL PLAGUE OF THE NATIONS.” (note: correction of the word, selflessness 3.3.2016).

When the System of the Talent and Purchase Order is the backdrop for the Silk Corridors and indeed that of the world, then the recovery of the NATIONS AND “EACH” PERSON OF BELONGING TO THOSE NATIONS SHALL BE NOT ONLY IMMEDIATE BUT SIMULTANEOUS.

Yet we are not finished with our Conference, for tomorrow even more “insight” shall be presented before final deliberations begin, “if” no other speakers present themselves with new information.

The information yet to be presented should prove of great “interest” to our guest, the Israeli Ambassador to the Philippines Effie Ben Matityau, whom may at that hour best assist us in his own fashion with printed text or video before we wrap up for the day another “Freedom of Navigation” in International waters, discourse.”

Day two: 3.3.2016

Israeli Ambassador Effie Ben Matityau, we plead your forgiveness, but this speaker presented his “concern” to be included in the Conference this day. Therein before we go to the next itinerary in this Conference we feel it to be wise to hold off another day while we hear and consider what the United States Defense Secretary Ashton Carter wishes to present to this meeting of the Ten ASEAN Foreign Ministers, yourself, Sir, including Defense Secretary Voltaire Gazmin. Our receiving more information to consider insofar as the “Freedom of Navigation and Overflight” issue is concerned insures that all sides be heard. Thank you, Sir, for your greater tolerance.

<https://www.facebook.com/notes/uthrania-seila-sentana-ries-cortez/pentagon-chief-says-china-actions-will-have-consequences-entry-into-round-table-/933011010139135>

Day three: 3.4.2016

ASEAN Foreign Ministers, Defense Secretary Voltaire Gazmin, and special guest Israeli Ambassador to the Philippines, Effie Ben Matityau, may we please continue our non-aggressive Conference. Defense Secretary Ashton “Clark Kent” Carter, Sir, should the tone of the Pentagon change, then you, Sir, are welcome at our table as well for the continuance of the session of this evening and day.

Thank you again for your patience, Ambassador Effie Ben Matityau, and we hope to be further enlightened by a word from you at least after you consider the topic.

Ladies and Gentlemen and guests, it is very simple really, is it not? The entire criteria in regard to “**International waters of Navigation and Overflight**” is one of “**sharing equally**” with not one NATION threatening the other.”

Yet, what we have witnessed in the past in a precedent case in International waters of Navigation and Overflight control *is one of great question.*

And the question here, Sirs and Madams and guests is this: *Exactly “why” did the United States not concern themselves with the issue of Israeli ships boarding Palestinian fishing boats and at certain hours even murdering their inhabitants?*

The second question is this: *Why was Israel allowed to board and arrest and sink one of the International Flotilla Vessels carrying only non-aggressive cargo such as medicine and clothes and so on, who were travelling directly to the shores of Palestine “through International waters of Navigation and Overflight control,” without the United States of America either interceding, taking Israel to the International Court, or placing sanctions upon Israel who holds well over three-hundred combined atomic bombs and warheads, illegal chemical weapons, for a starter?*

“...because the Maritime domain must be open and free to us all.” – Defense Secretary Ash Carter

(?)

All of this **and done with the full pardon of** the United Nations, the United States, Great Britain, France and so on, **never became much of an issue** but what did become an issue, gentlemen and ladies as well as guest speakers, is this:

The “potential” of The Silk Corridor of the CENTRAL ASEAN NATION as a Whole, demanded that the United States, to the tune of over five trillion dollars in trade, gaining taxes, stealing revenue from the CENTRAL ASEAN NATION as a Whole, NEEDED TO ENSURE THAT THE WORLD BANK AS WELL AS EACH OF THE WORLD BANK CORPORATIONS AND CONGLOMERATES POLICE NOT ONLY THE ASEAN SEA SILK CORRIDOR BUT INDEED THE ENTIRE RANGE OF SILK CORRIDORS LEADING THROUGHOUT THE WORLD IN ORDER THAT THEY BETTER FINANCE THEIR OWN COFFERS AS WELL AS KEEPING THE BOOT ON THE NECKS OF THE ASEAN WORLD.

BUT, the major “concern” is NOT the friendly and protective ASEAN NATION OF CHINA – BUT – THE SWITCHOVER TO THE TALENT AND PURCHASE ORDER SYSTEM OF ECONOMICS WOULD PUT THE WORLD BANK OUT OF BUSINESS. AND OUT OF BUSINESS SIMPLY MEANS “OUT OF CONTROL” OF THE NATIONS AND PEOPLES WHO FIRST BELONGED AND KNEW NOTHING AT THE INCEPTION OF THEIR SEEDING UPON THIS WORLD OTHER THAN THAT SYSTEM BELONGING TO EACH AND EVERY WORLD

WHICH UPHELD THE PARADISAICAL ECONOMIC PRACTICE OF PEOPLE FRIENDLY ECONOMICS.

The right arm of the United States foreign policy is the present day UN who for the most part serves only itself and the policies of the world bank.

Where the **brother-sister ASEAN NATION OF CHINA did not sign agreements of concern** to the United States and Great Britain at that hour with Israel silently backing the the two; **Israel who signed neither agreement, keeping well out of sight, saw the brother-sister ASEAN NATION OF CHINA did not break either agreement** (*you will soon understand why we say this*) **while it stood prominently and “transparently” in the forefront** and at the hour of capitalist control.

(Insert)

That would make Israel look bad, again. So to promote war against China in order to bring China out from under their change-over to a socialist-based program, then seeing them fully transitioning to the Original Talent and Purchase Order-based Federation of United and Free Planetary Worlds to the FULL benefit of the CENTRAL ASEAN NATION and indeed that of the World in its hour of transition; they calculatedly and repeatedly brought out their black book of misinformation and threats against China and the surrounding nations and so on in order to protect the world bank’s manufacturing of continuous “global consumption,” the “eating up” of the talents of the PEOPLES of the world who the world bank “forced” to make them great tax-based profits. That seemed the normal thing to do. Again.

China “knew” that UN based international law was there to uphold the tenets of the world bank using the United States in particular as its “hit” man upon the nations. The world bank’s aggressiveness toward the smaller or militarily and financially weak or weakened nations left those nations destitute and bankrupt through war and monetary manipulation.

China then had to keep the information at that hour under its own belt as one could well imagine facing the backlash of other nations misunderstanding.

(conclusion of insert in order to promote NO MISUNDERSTANDING)

Communism became the boogiemans of the world at that hour when all world capitalist and imperialist media condemned Vietnam and then China for **“MAYBE” going to invade the western world with all of its policies!**

So when the **brother-sister ASEAN NATION OF China embraced socialism** with a Chinese twist because of culture, the United States and the UN became alarmed, **because after seven long years of mouths watering and waiting until the Chinese would**

finish building the Silk Corridors, the United States did not wish to lose that TREASURE CHEST because they are the PIRATES of the Seas.

The United States, United Nations, and Israel did not care about Palestine and International agreements of **“Navigation and Overflight this or that”** because they already had that section of the world, they thought, done in and owned. **Just Syria left to go and the Syrian waterways would be owned. The United States and Israel then could well control the central to northern regions of the Middle East, place a “nuclear”** (Israel is just sitting there with the illegal arsenal) **so-called defense shield pointed at Russia, AND ANOTHER SILK CORRIDOR OF THE FEDERATION OF UNIFIED AND FREE PLANETARY WORLDS OF WHICH THE ASEAN CENTRAL NATION BELONGS, would be theirs, lock stock and barrel to control.**

That is why **the Federation of Unified and Free Planetary World “STOPPED”** the French Ambassador to the Philippines from obtaining a heavy financial grip on the Mindanao southern section. You see, with the Mindanao of the Philippines well under their control the European financial stock market would have racketeered collapsing the west. But, in doing so the Europeans, namely France, led by less than a leader of morals and ethics at that hour, **would have tourniquet the entire southern and northern Baguio part of the Philippines, “choking them” and eventually in short order “owning” them financially.**

We do not wish hardship upon the United States but the United States wishes hardship upon the ASEAN CENTRAL NATION **INCLUDING NORTH KOREA**, because the United States **“are”** run and operated by the world bank **which is losing all gravitational control.**

Ye ones might mock and laugh and those of banking substitutes as well, the big business, the corporation, **“but” the day is not over yet.**

So with all world eyes basically on the **CENTRAL ASEAN NATION**, the United States and Israel are monitored by Russia **who in all their brilliance will this hour “NOT” allow either the United States nor Israel the long arm policy-maker, to covertly conduct maneuvers WITHOUT the press learning of it.**

Diversion is an old military strategy and almost always works when too many irons are in the fire at one hour, for the PEOPLES of the WORLD who have been working just to stay alive were never given the hours by the world bank conglomerate to **really find out what was going on** and why their lives were so difficult **UNTIL the Internet came along** and now the new tool of the CIA and other factions such as the underground **MOSSAD control free speech and what PEOPLE are allowed to post**, either disappearing the information or hiding it or bouncing PEOPLE right off the Internet.

But always a covert operation of **“disinformation”** is their favourite pass-time. **They just drew up some new rules that is all it took.**

Is this enough for the day, gentlemen, ladies and special guest speakers?

Oh, and as far as not leaving North Korea out of the ASEAN CENTRAL NATION, Russia had nicely striven to give us more hours as President Putin knew well that we had the Conference in session.

The United States and Israel knew it too, and so **it was delayed no longer and pushed through with horrendous consequences.**

The United States through their right hand, the United Nations, heavy-handedly made sure that the ASEAN NATION OF NORTH KOREA WOULD NEVER AGAIN JOIN POLICIES WITH SOUTH KOREA, NOR PROTECT THE SILK CORRIDOR FROM THE INVADING, MASQUERADING HALF-SECTOR OF THE UNITED STATES OF AMERICA OF WHOSE *OTHER HALF-SECTOR OF PEOPLES ARE NOT IN THEIR ENTIRETY THE ENEMIES OF ANY ASEAN NATION but a PEOPLES of justice and compassion to all races upon this earth.*

BUT, did not China stand with the United States of America in sanctioning NORTH KOREA? Think about this: **China and Russia are both trade allies of NORTH KOREA, along with SOUTH KOREA.**

What the United world bank nation you have known as the UN has repeatedly supported and backed is a continuation of protecting financial interests **of the world sinking bank and its greedy corporate conglomerates.**

Iraq was sanctioned. Iraq is a swampland of oil and gas. Iran was later sanctioned. The U.S. began set the groundwork for the war between the two and President Saddam fell for it and Iran was not much better.

One of the reasons why Iran was later sanctioned was because it was conducting trade with Russia through the Caspian Sea. **The United States did not want Russia to gain credence with the WORLD NATIONS** because Iraq was heavily in debt to Russia due to Russian assistance to enable the PEOPLES of Iraq to survive the Imperial U.S. inquisition, onslaught and occupation of that nation. **That meant not a trade in oil when all of this was over, but a “payback” and the United States did not want Russian giant Lukoil in Iraq taking anything so the U.S. decided to make President Putin and the Russian NATION and DUMA the next boogeyman of the World.**

Shall we continue or is the picture almost nearly complete? Not quite, perhaps, *but there are days and weeks and months ahead.*

After the Philippines was struck by HAARP and the south wiped out, ISIS was put in to ensure **President Aquino III’s agreements between the Philippine government and**

MILF and cooperative good intentions of other Filipino PEOPLES would again be disrupted.

(insert)

You see no other groups called as rebels or otherwise would have wanted to upset or overturn a solution to the fractionalization of the entire Philippines when each and every one would have satisfied.

(conclusion of insert in order to promote NO MISUNDERSTANDING)

(bolded)

That will will be all for the day and we shall place this on early before we edit our punctuation or spelling, so you will each need to take of yourselves a new copy on the new morning of March the fifth two-thousand sixteen.

We leave you all to study, please, this next incitement into full blown war in the Middle East. The text is called “...**book for International Rules for Freedom of navigation in the palestinian israeli sea.**” Note please that “some pages are omitted from this book preview.” (Near the top in gray).

This document is also called: the “**Counterinsurgency Law.**”

AND you want de Hague or United Nations with all its precepts of dementia to decide who will be sanctioned, and what and by whom shall “Navigation and Overflight” of any sea shall be conducted” when the only one conducting terrorism and unbridled threats is the UN upholding and writing in laws which are given over to them by the United States and Israel who is not a nation at all but a military extension of the U.S. So, who are the PEOPLE of Israel? They are the ones who always got along with their brothers and sisters and cousins, the Arabs, and they used to reside on the same plot of land in harmony even under the days, months and hours of Turkish rule.

Turkey, join us now.

President Vladimir Putin, Sir, we do not run a digital system in our computer banks, neither do we give away the gold and precious items for they will serve as beautification of the nations and gold in particular for electrical components. We shall explain to you the system you have so long forgotten and perhaps memory will then serve you to

understand that the first system upon this world was the ***ORIGINAL and ONLY SYSTEM OF TALENT AND PURCHASE ORDERS***. Mr. President, Sir, *this system is not new, it is the ORIGINAL ONE*.

The new system is the one you have in place today, **falling out of place**, as Iceland who stands with us, explains. This world banking system was brought to this earth by a peoples who invaded this premises traveling through an accidental rip in the fabric of space **accidentally created by our own people of the Federation of Unified and Free Planetary Worlds**.

When they forced this monetary system *you have today, upon the PEOPLES of the Paradisaical Order of Economics “NON-DIGITAL”* Sir, they only allowed the *PEOPLES of this earth* to see through a glass darkly.

We will wrap up this session and day after tomorrow we will continue in our deliberations.

Thank you all for your hours and we wish each and every one a good rest. Salu.

3.18.2016

Gentlemen, ladies, and guests. We apologize for keeping you waiting but we must always assure that all documentation is in before we conclude this meeting called by the Ten Foreign Ministers of ASEAN NATIONS.

The question had arisen as to the perceived folly of our CHINESE friendly brothers and sisters in their refusal in adhering to UN criteria in the ruling of the international court on the SILK CORRIDOR, in particular the regions of the SILK CORRIDOR which the friendly brothers and sisters of other ASEAN NATIONS WITHIN THE CENTRAL WHOLE also adhere to in their ONENESS IN SHARING THE GIFT WHICH THE CHINESE ASEAN NATION WITHIN THE WHOLE HAVE so generously and meticulously have given to work as ONE PEOPLES WITHIN THE CENTRAL ASEAN NATION.

Now, the problem arises when nations refuse to work together because their policies differ from ONENESS in sharing to “I want my own water all to myself, China.” (sulk) Indeed, should then not the perceived complaint fall at the feet of the European Central Nation for mediation?

Well, before we wrap up this conference, brothers and sisters and guests here today, we would like for you to LISTEN to this wonderful sister of our global community and what

she has to disclose **concerning a great likeness to the WONDERFUL SILK CANAL OR CORRIDOR** and before you all come to the conclusion that the world court knows better than the **Federation of Unified and Free Planetary Worlds** in all good governance of **ONE ASEAN PEOPLES ALL WORKING TOGETHER IN CONCERTED EFFORT TO BRING ABOUT PROSPERITY FOR ALL ON AN EQUAL BASIS** watch and listen to this economist from Sierra Leone.

While we do not work upon a monetary based system of any format, the HUmanities are taking the first step into their transition to the **Talent and Purchase Order System** for while any monetary economics exist there will always be a thief waiting in the sidelines who will pull rank, pay people off, and so on, and the entire domino effect begins once again collapsing the nations one after the other at the feet of the waiting world bank.

https://www.youtube.com/watch?v=_pvNp9gHjfk&feature=youtu.be

Thank you. And have a good evening. Do not forget your canes and your belongings for this conference has now presented all evidence for your consideration and of that we are most satisfied.

We thank the each one of you for attending, for your patience, and for all your hard work. **Now LET US MAKE THIS ASEAN CENTRAL NATION A GREAT ONE!**

275. Is Reincarnation Really Necessary? (Part 2)

Is Reincarnation Really Necessary? (Part 2)

“If the bible were the ultimate truth then we would have no need to learn anything new from the universe.” – Reni Sentana-Ries

When reincarnation “strikes” so to speak, the consciousness of the infirmed of thought, reason, professing doubt in all things then just remember these words of sense, for what teaching behooves the People if that teaching leaves out significant realities, peacemealing only a part and portion of reality in one small package expecting

the HUmanities to pay for extra “enlightenment” through the tithes and hole in their pocketbooks, only tfind in the end upon their crossing over from this life to the next that they had been severely duped over and over and over again.

So then just “why” is reincarnation necessary and not only one lifestream of experience as being enough before you physically die and as you are taught, “go to heaven?”

To encapsulate, this is because each HUman being must first experience life’s lessons in order to substantially “grow” in talents **and to overcome** the **Hellion DNA-Helix** which is the negative action within yourselves, each one, **entirely due to the procreation of yourselves by the Hellions** who travelled through the very fabric of space when an accidental rip in the curtain, so to speak, was initiated.

The Hellions invaded this world and procreated with the good Humans belonging to the Federation of Unified and Free Planetary Worlds.

Hellions is where the word “Hell” is derived from. Hell is not so much a place as an attitude which brings about through “actions of the negative DNA-Helix strain being the second Helix,” a climate or manifestation of a Hellish place, which upon reincarnation, a soul may be rebirthed into; the deciding factor being: what did the man or woman do in their lifestream to rebuild the paradise they had lost?

Do ye ones not see yet for the blinders constantly over your eyes and minds?

Your bible was altered. We ones throughout the centuries never wrote a bible nor any other religious text which leaves out our very words of caution and critique and compassion for each of you by bringing the HUmanities back into reality; **the reality YOU ALL LEFT.**

It was not “sin” which lost HUmanity their paradise upon this world; it was a combination or grafting of Hellion DNA-Helix within each man and each woman which brought about a contamination of their seed and egg, as well, and paradise was slowly eroded and in its place bondage upon the peoples.

With the loss of remembrance and the tainting of the HUmanities who were transported to this world from many paradisaical planets, **bondage to money and religion and drugs** took the place of **contentment, happiness, and ONENESS** among the seeds or HUman races of **the Federation of Unified and Free Planetary Worlds** manifesting throughout the paradisaical frontier shortly after the **Hellion invasion and occupation which has lasted unto this very day, moment and hour.**

When the Hellions arrived upon this planet **they shortly replaced the Original Talent and Purchase Order System of good paradisaical Economics** with their **corrupt capitalist monetary system of usury (resulting in bondage and death for the people)**

and when the peoples begin forgetting their heritage from the paradisaical worlds, they were given religion in its place. This, we cannot speak of ourselves often enough.

It was not the good HUmanity from Paradisaical worlds who “sinned” before a one-eyed G-D, it was the Hellions, themselves, who took away from “the seeds or HUmanity” belonging to the Federation of Unified and Free Planetary Worlds, all traces of paradise.

The Hellions copulated and spread their seed and received with their egg the mixing of those with positive DNA-Helix and lost the seeds or HUman races first brought from the distant planets within the Federation of Unified and Free Planetary Worlds, their new earthly paradise;

first through force in hunting down the ones who had retained all the knowledge of the worlds which you call paradise.

If ye ones have questions, please ask.

If you are here to fight then please do not bother. Sela

Extended Quotes by Uthrania Seila and Jamie Sentana-Ries Cortez

Life does not lose its sparks, much less the decaying flesh from which the soul departs. A vortex is compared to a whirlpool, an energy force that seems to circumvent the so-called natural laws of physical science. Those entering it or get sucked by it are just passing through a gate to their “past” or “future” dwellings where they are

living their separate lives “all at the same time,” for time is a figment of the mind and therefore does not exist. - Jamie and Uthrania Seila Sentana-Ries Cortez, representatives of the REAL Federation of Unified and Free Planetary World NATION
In the event of delving into record lake as we like to call it, the simulation only remains as partisan to that of defining the future for when one reincarnates into wisdom then the die has been already cast and no further need to explore lessons as in a book with the cover drawn back for the mind and intellect and soft spot of the soul to remember, cast off and understand. - Jamie and Uthrania Seila Sentana-Ries Cortez, representatives of the REAL Federation of Unified and Free Planetary World NATION

Thoughts have the same speed as light, as the soul does. All three are matter converted into energy. As the physical body is also matter, it is therefore energy as such and thus converted, it can travel through the same space-time continuum. - Jamie and Uthrania Seila Sentana-Ries Cortez, representative of the REAL Federation of Unified and Free Planetary World NATION
